

# **Statistical Report 2008/09**

**Corrective Services New South Wales**

## PREFACE

This statistical report is prepared to provide statistical data on long term trends in key performance areas of Corrective Services NSW (CSNSW). Some of the data presented provides long term trends on performance indicators presented in other reports, in particular the CSNSW *Annual Report* and the Productivity Commission's *Report on Government Services*. Due to the need for consistency across diverse correctional jurisdictions nationally, nationally based correctional performance indicators for escapes and deaths are not consistent with the NSW specific indicators presented in this report. Unlike NSW, not all jurisdictions operate external leave programs for full-time custody offenders or a home detention program. By necessity, therefore, nationally based performance indicators for escapes and deaths exclude escapes from external leave programs and deaths of home detainees respectively. As data on escapes and deaths presented in this report are based on statistical counting rules developed specifically for NSW, they are not comparable to similarly described correctional performance indicators presented in the *Report on Government Services* and in sections of the CSNSW *Annual Report* (where nationally based indicators are often presented).

Statistics contained in this publication are collected from various sources within CSNSW. Prior to 1997/98 offender population statistics were supplied by each correctional centre and collated on a weekly basis. Since that time, these statistics are collated directly from the CSNSW Offender Integrated Management System (OIMS). Other information on offences, aboriginality, receptions, discharges and offences in custody continues to be collated from OIMS. Up until January 2008 serious incidents including escapes and deaths in custody were reported to Corporate Research, Evaluation and Statistics as they occurred. Since January 2008 the reporting of these incidents have been incorporated into OIMS.

In this report, unless otherwise stated, the term "offender" used refers to persons held in custody (including periodic detention) as distinct from persons managed by the CSNSW in the community (i.e. community based offenders).

Some tables showing trends over time have been truncated. Data for preceding years is available from earlier publications of this report.

The definition of the custody based population used in this publication was revised in 2007/08 to align with other CSNSW and external publications. Where applicable, data for years preceding this change has been revised to comply with the revised definition and, where appropriate, tables have been footnoted to indicate specific changes.

# STATISTICAL REPORT

## 1. Offender Population

### *Population Characteristics*

Table 1	Offenders under detention (including periodic detention); 29 June, 2008 and 28 June, 2009 .....	1

- Includes offenders held on remand and those held beyond the expiry of any sentence pending deportation. Appellants are included under sentenced offenders.
- Full-time custody includes offenders held in gazetted correctional centres, transitional centres and court cell complexes operated by Corrective Services NSW (CSNSW). Offenders temporarily absent from a correctional centre are also included. Separate totals for transitional centres and police/court cell complexes are also presented in this table.
- Includes gazetted correctional centres only.
- Brewarrina (Yetta Dhinnakkal) Centre was closed (temporarily) following a severe storm on 27 February 2009.
- Dawn de Loas Correctional Centre was gazetted on 5 December 2008. Prior to gazettal this centre was reported as Special Purpose Centre (Dawn de Loas).
- The first offenders at the Long Bay Hospital - Aged Care and Rehabilitation Ward were received on 4 January 2009.
- Prince of Wales Hospital (Secure Unit).
- The first offenders at the re-opened Long Bay Hospital (Area 2) were received on 2 February 2009.
- The last offenders at the Forensic Unit of the Metropolitan Special Programs Centre were transferred on 27 November 2008.
- The first offenders at the Outer Metropolitan Multi-Purpose Centre were received on 3 March 2009.
- Transitional centres house offenders temporarily released under s26(2j) of the *Crimes (Administration of Sentences) Act 1999*. Transitional centres are not gazetted as correctional centres and therefore these offenders are not included in the totals for gazetted correctional centres but are included in the totals for full-time custody.
- CSNSW manages 14 court cell complexes throughout NSW which operate on a 24 hour basis. The number of offenders held in these complexes varies widely during the week. Offenders temporarily absent from a correctional centre who were held overnight in a court complex are recorded against the correctional centre from which they are absent rather than against the court complex. Figures include Police custody detainees.
- Other courts are courts that operate during normal court business hours only and therefore do not hold offenders overnight. Offenders shown here are those received and discharged on the same day under the management of corrective services staff. Court cells are not gazetted correctional centres and therefore these offenders are not included in the totals for gazetted correctional centres but are included in the totals for full-time custody.
- Periodic detention is an alternative to full-time imprisonment which requires an offender to be held in custody within a periodic detention centre for two days of each week for the duration of the sentence. In Stage II of the program eligible offenders may be authorised to attend a designated work site (which is under the supervision of

corrective services staff) where the offender is no longer required to be held overnight at a periodic detention centre. Totals include a small number of offenders held in full-time custody for whom a periodic detention order remained active.

15. The last offenders at the Metropolitan PDC (Weekend, Mid-Week and Stage 2 programs) were transferred on 24 May 2009. These offenders were transferred to Silverwater PDC (Weekend, Mid-Week and Stage 2 programs) and received on 31 May 2009.
16. Total offenders includes offenders held in full-time custody and periodic detention centres. This total includes a small number of offenders held in full-time custody for whom a periodic detention order remained active. These offenders are counted twice in this total.

1. Totals may not equal the total of the individual centre averages because some centres were not open for the whole of the year, or because of numerical rounding.
2. Full-time custody total comprises gazetted correctional centres, transitional centres and police/court cell complexes. Excludes periodic detention.
3. Gazetted correctional centres only (excludes transitional centres, police/court cell complexes and periodic detention centres).
4. These centres for male offenders held a small number of female offenders at some time during 2007/2008 or 2008/09.
5. A number of units of Cessnock (Minimum) were closed in March 2009.
6. Dawn de Loas Correctional Centre was gazetted on 5 December 2008. Prior to gazettal this centre was reported as Special Purpose Centre (Dawn de Loas). In April 2009 a number of units managed by Silverwater Correctional Centre were transferred to Dawn de Loas.
7. A small number of female offenders at the June Baker Centre who require protection or segregation are housed in the medium security (male) section of Grafton Correctional Centre. These offenders are, however, included in the totals for the June Baker Unit.
8. The last offenders at John Morony II were transferred on 29 September 2007. The daily average for 2007/08 is based on 89 days.
9. The first offenders at the Long Bay Hospital - Aged Care and Rehabilitation Ward were received on 4 January 2009. The daily averages for 2008-09 is based on 177 days.
10. The first offenders at the re-opened Long Bay Hospital - Area 2 were received on 1 February 2009. The daily averages for 2008-09 is based on 149 days.
11. The last offenders at the Metropolitan Special Programs Centre - Forensic Unit were transferred on 27 November 2008. The daily average for 2008/09 is based on 149 days.
12. The last offenders at the Metropolitan Special Programs Centre - Kevin Waller Unit were transferred on 25 September 2008. The daily average for 2008-09 is based on 86 days.
13. The first offenders at the Outer Metropolitan Multi-Purpose Centre (previously John Morony I) were received on 3 March 2009. The daily average for 2008-09 is based on 121 days.
14. A number of units at Silverwater Correctional Centre were temporarily closed in September 2008. In April 2009 these units were re-opened as operated as part of Dawn de Loas Correctional Centre and Silverwater Periodic Detention Centre.
15. The first offenders at Wellington Correctional Centre were received on 19 August 2007. The daily average for 2007/08 is based on 317 days.
16. The Women's Programs and Remand Centre operated on the site of John Morony II between 1 May 2008 and 27 May 2008. The daily average for 2007/08 is based on 27 days.

17. Transitional centres house offenders temporarily released under s26(2j) of the Crimes (Administration of Sentences) Act 1999. These centres are not gazetted correctional centres and have not been included in the totals relating to correctional centres but are included in the totals for full-time custody.
18. CSNSW manages 14 police/court cell complexes throughout NSW which operate on a 24 hour basis. The number of offenders held in these complexes varies widely during the week. Offenders temporarily absent from a correctional centre who were held overnight in a police/court complex are recorded against the correctional centre from which they are absent rather than against the police/court complex. Figures include Police custody detainees. These centres are not gazetted correctional centres and are not included in the totals relating to correctional centres but are included in the totals for full-time custody.
19. Other courts are courts that operate during normal court business hours only and therefore do not hold offenders overnight. Offenders shown here are those received and discharged on the same day under the management of CSNSW staff. Other court cells are not gazetted correctional centres and are not included in the totals relating to correctional centres but are included in the totals for full-time custody.
20. Averages for Periodic Detention Centres (PDCs) are based on the number of offenders with live orders for the weeks each centre was opened. All PDCs were closed for Easter in 2008 and 2009. Unless otherwise indicated, the daily average for both 2007/08 and 2008/09 are based on 51 weeks. Totals may not equal the sum of individual centres due to numerical rounding.
21. The first offenders at Emu Plains PDC were transferred (from Norma Parker PDC) on 2 March 2008. The last offenders were transferred from Emu Plains PDC (to Wollongong PDC) on 8 June 2008. The daily average for 2007/08 is based on 17 weeks.
22. The last offenders at Metropolitan PDC Stage 1 (Midweek and Weekend) and Stage 2 were transferred (to Silverwater PDC) on 24 May 2009. The daily average for 2008/09 is based on 46 weeks.
23. The last offenders at Norma Parker PDC were transferred (to Emu Plains PDC) on 24 February 2008. The daily average for 2007/08 is based on 34 weeks.
24. The first offenders at Silverwater PDC were transferred (from Metropolitan PDC) on 31 March 2009. The daily average for 2008/09 is based on 5 weeks.
25. Female offenders from Emu Plains PDC were transferred to the female unit of Wollongong PDC on 15 June 2008. Prior to that transfer, the average female offender population at Wollongong PDC was approximately 8 offenders. Following the transfer of female offenders from Emu Plains the daily average female offender population at Wollongong increased to approximately 40 offenders. The daily average female offender population for the entire 2007/08 period was 10 offenders.
26. Total full-time equivalent offenders comprises offenders held in full-time custody and 2/7ths periodic detention centres. The total includes a small number of offenders held in full-time custody for whom a periodic detention order remained active. These offenders are counted twice in this total.

Source: NSW Inmate Census 2008 (NSW Department of Corrective Services: Statistical Publication No. 32).

1. Comprises offenders held in gazetted correctional centres, transitional centres, police/court cell complexes and periodic detention centres. This definition has been revised from previous years and totals are not directly comparable with previous publications.
2. The system used for the classification of most serious offence has changed. Prior to 2007/08 this the most serious offence was classified according to the NSW Classification of Offences and of Care and Protection Orders for Child (2nd revision). In this report the most serious offences is classified using the 1997 edition of the Australian Standard Offence Classification (ASOC) developed by the Australian Bureau of Statistics (see ABS Catalogue no. 1234.0 - 1997).
3. Unless otherwise stated, the most serious offence is classified as the offence with greatest aggregate sentence and ignores offences for which conviction or sentencing are not finalised. Where two or more separate offences with equal sentence length were classified to separate ASOC groups, the offence with the lowest NSW offence code was determine to be the most serious offence.
4. Unconvicted offenders comprise those held on remand/trial, convicted awaiting sentence, deportees, those awaiting extradition or police custody detainees managed by CSNSW. For unconvicted offenders the most serious offence is classified as the offence with the lowest NSW offence code.
5. Sentenced offenders includes periodic detainees and forensic patients.

1. Comprises offenders held in full-time custody (including transitional centres and Police/court cell complexes) on the last Sunday of the financial year together with offenders on periodic detention during the preceding week. Since 2002, figures have included police custody detainees and fresh custody persons received and discharged on the same day.
2. Community supervision includes offenders with orders in suspense, where supervision has temporarily been suspended. Supervision may be temporarily suspended for a number of reason, including where breach action has been taken pending advice from a court, execution of a warrant, temporary absence with permission or interstate supervision (probation orders).
3. The *Home Detention Act 1996* came into effect on 21 February 1997, establishing a Home Detention Order as an alternative means of serving sentences of full time imprisonment of up to 18 months.
4. Community service orders (CSO) include offenders on community work orders and orders that include both community work and attendance programs.
5. The Community Service Order (Fine Default) program commenced 1 Jan 1988 and was discontinued in 1998. The *Fines Act 1996* was introduced in January 1998. The community service order is the latter part of the overall fine default enforcement process and until the latter part of 2003 only a small number of offenders had progressed to a community service order.
6. Probation orders include bonds, CSO (attendance program only), bail supervision, drug court and suspended sentence orders.
7. Some offenders are subject to orders in more than one category (e.g., CSO plus probation), hence the number of orders supervised is always greater than the number of people supervised. For example, although the table indicates a total of 21,104 offenders with home detention, CSO, fine default, parole and probation orders on 30 June 2000, there were actually 18,491 offenders being supervised.
8. Total represents the sum of "Custody" and "Sub-total community supervision" offenders.

1. The equivalent full-time average for periodic detention centres is calculated as 2/7ths of the actual average as offenders are in custody only 2 days per week.
  2. Transitional Centres are not gazetted as correctional centres and house female offenders on temporary leave under s26(2j) of the *Crimes (Administration of Sentences) Act 1999*. The first transitional centre offenders were received on 22 September 1996.
  3. Corrective Services NSW (CSNSW) has managed offenders in 24 hour police/court cell complexes since 1992. Collection of accurate data on the daily average population of offenders held overnight in these complexes commenced in July 2001.
  4. Other courts are places of detention managed by CSNSW which operate during court hours only. These offenders are received and discharged on the same day and are not held in custody at these centres overnight. Collection of accurate data on the daily average number of offenders held in these centres commenced in July 2001.
  5. The total equivalent full-time daily average is the average number of offenders managed on a daily basis throughout the year.
  6. For the calendar year ending 31 December 1973.

1. Includes transitional centres and police/court cell complexes. Revised from previous years publications.
2. Aboriginality as self reported at reception into custody. Offenders whose Aboriginality was recorded as "Unknown" in the Census are reported as non-Aboriginal/TSI. The method for determining Aboriginality changed in 2003. Previously, the Aboriginality status current at the time of the Census was recorded. Under new counting rules, an offender is recorded as being Aboriginal or Torres Strait Islander where any current or past record reported the offender as being Aboriginal or Torres Strait Islander.
3. Totals are based on revised definition of full-time custody (see Preface) and are not directly comparable with figures presented publications prior to 2007/08.

1. Corrective Services NSW (CSNSW) assumed responsibility for police/court escort functions from the NSW Police Service in 1991 and the management of a small number of 24 hour police/court cell complexes in 1992. The *Correctional Centres Amendment Act 1998* (which commenced in July 1998) enable correctional officers to manage offenders in 24 hour police/court cell complexes. Since that time the number of 24 hour police/court cell complexes managed by CSNSW increased and the CSNSW currently manages fourteen (14) 24 hour police/court cell complexes across NSW. Many of the offenders received into 24 police/court cells are Police custody ("Form 7" of the *Bail Regulation 1999*) detainees who are persons in police custody (police-bail refused) who are managed by CSNSW. Many of these "Form 7" detainees are discharged from custody following their court appearance and those remanded into custody are usually transferred to a correctional centre. The figures shown here include only those offenders who were received and subsequently discharged from a 24 police/court cell complex without ever having been transferred into a correctional centre during that episode of imprisonment.

2. Offenders received into correctional centres includes offenders initially received into a police/court cell complexes who were subsequently transferred to a correctional centre.

1. Prior to March 1989 reception data was based on information supplied by correctional centres. Since that time data has been retrieved from the CSNSW offender record system. The method of retrieving reception data from the record system was revised in 1995/96, 1997/98 and 2001/02. Statistics for 1989/90 to 1992/93 were obtained from the Offender Record System (ORS) by the 1995/96 revised method. Statistics for 1993/94 to 1996/97 were obtained from the Offender Management System (OMS) using the 1997/98 method. Statistics for 1997/98 onward were obtained using the third-revised method and differ from those previously published. 2. Includes unsentenced receptions who subsequently received a sentence to be served by way of full-time imprisonment. 3. There was a moratorium on the execution of Fine Default warrants at the end of 1987 and legislative amendments introduced in January 1988 which reduced the number of fine defaulters received into custody. There were further moratoriums on the execution of Fine Default warrants in NSW between 31 March and 30 June 1994 and 1 October and 31 December 1997. A new fine enforcement system was introduced in January 1998 under the Fines Act 1996. Since October 1997 only Federal, ACT and interstate fine defaulters have been received into NSW correctional centres. 4. Includes 35 fine defaulters received at Port Macquarie Court Cells during 1996/97, 8 during 1997/98 and 1 during 1998/99. 5. Includes 20 fine defaulters received into Periodic Detention Centres during 1994/95, 33 during 1995/96 and 16 during 1996/97. 6. The total number of receptions is a unique count of reception episodes and is not equal to the sum of unsentenced and sentenced receptions. An unsentenced offender who subsequently received a sentence of full-time imprisonment during the same imprisonment episode in the same financial year is counted once under unsentenced, once under sentenced and once in the total.

1. Includes offenders discharged from transitional centres but excludes offenders discharged from police/court cell complexes.

2. Does not include offenders who died in custody or were deported or extradited on completion of sentence.

3. There were moratoriums on the execution of Fine Default warrants in NSW between 31 March and 30 June 1994 and between 1 October 1997 and 31 December 1997.

A new fine enforcement system was introduced on 27 January 1998 under the *Fines Act 1996*. This system is based on a hierarchy of civil and non-custodial sanctions.

All fine defaulters received after introduction of this Act were for interstate or federal fines.

1. Comprises offenders held in correctional centres, periodic detention centres, transitional centres and police/court cell complexes. Definition revised in 2007-08. Sentenced offenders excludes appellants but includes forensic patients and civil offenders. 2. Most serious offence is classified as the offence with the greatest aggregate sentence ignoring unfinalised charges. 3. Prior to 1998 "Breach of Parole" was only counted as the most serious offence where there were no other current convictions. Since 1998 "Breach of Parole" is treated like any other offence in the calculation of the most serious offence. Classification of offences is based on the ABS Australian Standard Offence Classification (ASOC) 1997 and categories are not comparable with publications prior to 2007/08.

NB: The count of escapes is based on NSW specific counting rules which are not aligned with those adopted for the Productivity Commission's *Report on Government Services*.

1. Includes 4 escapes from Bolwara House Transitional Centre (1 in 2003/04, 2 in 2005/06 and 1 in 2008/09).

2. The first full-time offenders at the Malabar Fines Unit were received on the 16 August, 1996. The last offenders were transferred on 18 November 1997.

\* Malabar Fines Centre did not operate during these years (see explanatory note 2).

1. Categories of offence are explained in the following notes.

2. Number = number of charges.

3. Rate per 100 offenders held calculated as: 
$$\frac{\text{Number of charges} \times 100}{\text{Daily average full-time custody population}}$$

4.Regulations allowing condoms to be made available to offenders were introduced in March 1996.

5. Specific regulations relating to possession of cameras, audio/video recorder and mobile phones were introduced into the *Crimes (Administration of Sentences) (Correctional Centre Routine) Regulation* in February 2004.

## **NOTES ON OFFENCE CATEGORIES**

*Regulations cited below are as stated in the Crimes (Administration of Sentences) (Correctional Centre Routine) Regulation 2008 under the Crimes (Administration of Sentences) Act 1999.*

### **Abusive Behaviour**

This category includes breaches of the following regulations: intimidation, Clause 128 and indecency, Clause 129 .

Whether behaviour is considered abusive or threatening may depend on the circumstances. Thus a correctional centre where a high level of abuse was tolerated might have few offenders charged, although abusive behaviour was common, and vice versa.

### **Fighting or Assault**

This category includes breaches of the following regulations: assaults, Clause 131 and fight or engage in other physical combat, Clause 132.

It should be noted that the more serious cases of assault may be dealt with directly by police and hence not appear as misconduct charges. Also, charges cannot be made if an alleged assailant is not known. Thus these figures in no way indicate the number of assaults that have taken place. A count of assaults and fights in correctional centres is separately maintained by Corporate Research, Evaluation and Statistics.

### **Charges Against Good Order**

This category includes breaches of the following regulations: supply false or misleading particulars, Clause 5; fail to surrender property on reception, Clause 8; fail to clean yards, Clause 35; fail to comply with correctional centre routine, Clause 36; enter other cell, Clause 37; misuse bell, hooter, siren or whistle, Clause 39; avoid correctional centre routine, Clause 40; unlawfully deliver or receive article to or from inmate, Clause 41; resist or impede search, Clause 43; fail to keep property in a tidy and orderly manner, Clause 44; unlawfully purchase food, Clause 49(2); possess unauthorised food, Clause 49(3); unlawfully trade in food, Clause 49(4); fail to maintain personal cleanliness, Clause 53; wear improper clothing Clause 54; fail to keep clean cells and issues articles, Clause 55(1); fail to look after clothing, bedding and other issues articles, Clause 55(3); misbehave while attending services and programs, Clause 58; convey or deliver to, or receive from, visitors unauthorised articles, Clause 94; send or receive unauthorised letters or parcels, Clause 104; send prohibited letters, parcels or articles, Clause 105; unlawfully use telephone or facsimile, Clause 110; disobey direction, Clause 120; contravene condition of local or interstate leave permit, Clause 124; conceal for purpose of escape; Clause 125; conceal article for use in escape or other offence, Clause 126; possess offensive weapon or instrument, Clause 127; participate, or incite other inmates to participate in, riot, Clause 130; tamper with food or drink, Clause 132; hinder or obstruct dog, Clause 133; cause harm to animal, bird or reptile, Clause 134; tattoo, Clause 136; gamble, Clause 137; smoke in non-smoking area, Clause 144(a); bribery, Clause 145; obstruct correctional officer, Clause 146; make mischievous complaint, Clause 161; give false or misleading information, Clause 173.

### **Stealing/possess prohibited goods**

This category includes breaches of the following regulations: create or possess prohibited goods, Clause 42 and steal, Clause 132(1).

The number of charges for stealing or possession of contraband at a correctional centre may depend on the availability of articles to steal or the opportunity to acquire illegal property.

### **Property Damage**

This category includes breaches of the following regulations: damage, destroy or deface cell, Clause 55(2); desecrate or abuse religious objects, Clause 65; throw article, Clause 131(3); damage or destroy property, Clause 132; interfere with correctional centre property, Clause 135 and alter, damage or remove non-smoking or smoking sign, Clause 144(b).

In a correctional centre environment, especially with shared cells, it may be difficult to prove who was responsible for property damage. Thus although property damage may have occurred, charges may not be laid or may be dismissed.

### **Failure to Attend Muster**

This category consists of breaches of Clause 38 failure to attend muster. The number of charges for failure to attend to muster is likely to be influenced by the routine of the correctional centre.

### **Refuse to Provide Urine Sample**

This category comprises breaches of the following regulations: refuse or fail to provide urine sample where drug use is suspected, Clauses 149 and refusal or fail to supply a urine sample whether or not drug use is suspected, Clause 150. For this offence the number of charges at a correctional centre is likely to depend more on the number of samples requested and the conditions under which they are taken than on the percentage of refusals.

### **Alcohol Charges**

This category includes breaches of the following regulations: possess or consume alcohol, Clause 138(1); prepare or manufacture alcohol, Clause 138(2) and refuse breath testing, Clause 147.

### **Other Drug Charges**

This category includes breaches of the following regulations: possess drug, Clause 139; administer drug, Clause 140; possess drug implement, Clause 141; self-intoxication, Clause 142 and fail prescribed urine test, Clause 143.

Many of the charges in this offence type were on the results of a urine test so that the number of charges depends partly on the number of tests made. In addition, some offenders with a positive urine test were not charged, for example, because they had been discharged by the time the results arrived or because they had not been in custody long enough for it to be certain that the drug was used during imprisonment. Thus the change in the number of drug charges does not necessarily reflect a change in drug use in correctional centres.

### **Unauthorised possession/misuse of condom**

Regulations allowing condoms to be made available to offenders were introduced on 22nd March, 1996. Under the current Regulation an offender may be charged with unlawfully possess condom, Clause 56(3); unlawfully use condom, Clause 56(4) and unlawfully dispose of condom, Clause 56(5).

### **Possess camera/audio equipment or mobile phone**

Regulations relating to possession of cameras, video or audio recorders/accessories, Clause 112 and possession of a mobile phone/accessories, Clause 113 were introduced on 6 February, 2004. Prior to the introduction of this specific offences, charges of this nature were recorded under possession or create prohibited goods, Clause 42.

NB: The count of deaths is based on NSW specific counting rules which are not aligned with those adopted for the Productivity Commission's Report on Government Services.

1. Deaths in correctional custody include deaths of offenders on Home Detention in the community but exclude offenders who died following release from custody under s160 of the *Crimes (Administration of Sentences) Act 1993*. 2. Cause of death is recorded as the apparent cause of death where the NSW Coroner has yet to determine the cause of death. At some later point these incidents may be re-classified in accordance with the Coroner's finding. Therefore, figures and some totals may differ from those previously published. 3. Drug overdose excludes deaths where Coroner gave a finding of suicide. 4. Other causes include accidental deaths and deaths where the NSW Coroner was unable to determine if the cause of death was suicide. 5. Cause of death was not apparent and awaiting finalisation of coronial inquiry. 6. Aboriginal/TSI - Aboriginal or Torres Strait Islander offender.

**NB.** The total "Total offenders" recidivism statistic presented here is comparable to the "Prisoners returning to prison" indicator as reported in the Productivity Commission's Report on Government Services.

1. The data refers to offenders discharged from full-time custody between 1 July 2006 and 30 June 2007 after serving a full-time custodial sentence in a NSW correctional centre or transitional centre. Excludes offenders discharged on completion of a sentence where CSNSW held information indicating further outstanding charges against the offender (e.g. offenders discharged where the reason was recorded as "sentenced expired and bail").
2. The focal episode is the episode of full-time custody to which the discharge between 1 July 2006 and 30 June 2007 refers. The category of most serious offence is now based on the Australian Standard Offence Classification (ASOC) 1997 and are not directly comparable to categories reported in publications prior to 2007/08.
3. No imprisonment under sentence in a correctional centre managed by CSNSW prior to the focal episode.
4. Imprisonment under sentence in a correctional centre managed by CSNSW prior to the focal episode.
