STATISTICAL REPORT

2003/04

NSW Department of Corrective Services

PREFACE

This statistical report is intended as an adjunct to the Department's 2003/04 Annual Report. In general, the statistical report includes tables covering a number of years, whereas the Annual Report contains five year data.

Statistics contained in this report are collected from various sources within the Department. Prior to 1997/98 inmate population statistics were supplied by each correctional centre and collated on a weekly basis. These statistics are now collated directly from the Department's Offender Integrated Management System. Other information on offences, aboriginality, receptions, discharges and offences in custody continues to be collated from the computerised records on the Offender Integrated Management System. Serious incidents including escapes and deaths in custody are reported to Corporate Research, Evaluation and Statistics as they occur.

Tables showing trends over time have been truncated. Data from preceding years is available from earlier Annual Reports.

STATISTICAL REPORT

TOTAL (All offenders)¹¹	1711	148	6641	448	8948	1772	179	6943	503	9397

1. Includes inmates held on remand and those held beyond the expiry of any sentence pending deportation. In this publication, appellants are included under sentenced inmates.
2. Full-time custody includes inmates held in gazetted correctional centres, transitional centres and court complexes operated by the Department of Corrective Services. Inmates temporarily absent from a correctional centre are also included. Separate totals for transitional centres and court complexes are also presented in this table. Totals for full-time custody have not been previously published.
3. Includes gazetted correctional centres only.
4. Includes annexe at Prince of Wales Hospital (Secure Unit).
5. The first inmates at the Additional Support Unit of the Metropolitan Special Programs Centre were received on the 20 February 2004.
6. The work release program at the Industrial Training Unit of the Metropolitan Special Programs Centre was transferred to Silverwater Correctional Centre on 1 December 2003.
7. The Violence Prevention Unit of the Metropolitan Special Programs Centre closed on 28 June 2003 (to undergo refurbishment). The program re-opened as the Violent Offender Therapeutic Program on 23 October 2003.
8. The Mobile Camp program at St Heliers Correctional Centre was suspended in July 2003.
9. The Department currently manages 15 court cell complexes in NSW which operate on a 24 hour basis. The number of inmates held in these complexes varies widely during the week. Inmates temporarily absent from a correctional centre who were held overnight in a court complex are recorded against the correctional centre from which they are absent rather than against the court complex. Figures include Police custody detainees. Other courts include courts that operate during normal business hours only and therefore do not hold persons overnight. Persons shown here are persons received and discharged on the same day under the management of Departmental staff. Court cells are not gazetted correctional centres and therefore these inmates are not included in the totals for gazetted correctional centres but are included in the totals for full-time custody. These figures have not been collated or presented in previous years.
10. Transitional Centres house inmates temporarily released under s26(1) of the Crimes (Administration of Sentences) Act 1999. Transitional centres are not gazetted as correctional centres and therefore these inmates are not included in the totals for gazetted correctional centres but are included in the totals for full-time custody.
11. Total offenders includes inmates held in full-time custody and periodic detention centre detainees.

* - denotes an average inmate population of fewer than 0.5 inmates

1. Totals may not equal the total of the institutional averages because some institutions were not open for the whole of the year, or because of rounding errors.
2. Full-time custody total includes gazetted correctional centres, transitional centres and court cells. Not previously published.
3. These centres held a small number of female inmates or detainees at some time during 2002/2003 or 2003/2004.
4. Due to a lack of appropriate accommodation, female inmates at the June Baker Centre requiring protection or segregation are housed in the Medium security (male) section of Grafton Correctional Centre. These inmates are, however, included in the totals for the June Baker Unit.
5. The Violence Prevention Program Unit at the Metropolitan Special Programs Centre closed on 29 June 2003. The daily average for 2002/03 is based on 363. The program re-opened as the Violent Offender Therapeutic Program on 23 October 2003. The daily average for 2003/04 is based on 252 days.
6. The first inmates at the Additional Support Unit of the Metropolitan Special Programs Centre were received on the 20 February 2004. The daily average for 2003/04 is based on 132 days.
7. The first inmates at Tamworth (Minimum) were received on 17 October 2002. The daily average for 2002/03 is based on 242 days.
8. The Department has managed the operation of a small number of court cell complexes since 1992 and currently manages 15 complexes throughout NSW which operate on a 24 hour basis. The number of inmates held in these complexes varies widely during the week. Inmates temporarily absent from a correctional centre who were held overnight in a court complex are recorded against the correctional centre from which they are absent rather than against the court complex. Figures include Police custody detainees. Other courts include courts that operate during normal business hours only and therefore do not hold persons overnight. Persons shown here are persons received and discharged on the same day under the management of Departmental staff. These figures have not been collated or presented in previous years. Both 24 and other court cells are not gazetted correctional centres therefore they have not been included in the totals relating to correctional centres but are included in the totals for full-time custody.
9. Transitional Centres house inmates temporarily released under s26(1) of the Crimes (Administration of Sentences) Act 1999. These inmates are not gazetted correctional centres therefore they have not been included in the totals relating to correctional centres but are included in the totals for full-time custody.
10. Averages for Periodic Detention Centres (PDCs) are based on the number of persons with live orders for the weeks each centre was opened. All PDCs were closed for Easter in 2003 and 2004. Mid-Week centres were closed over New Years Day (1 January 2003) and Christmas Eve (24 December 2003). Unless otherwise indicated, the daily average for all centres for both years is based on 51 weeks.
11. The first detainees were received at Campbelltown PDC during the week ending 13 October 2002. The daily average for 2002/2003 is based on 37 weeks.
12. The last detainees at the Metropolitan PDC (Weekend, Mid-Week and Stage 2 programs) left during the week ending 6 October 2002. These detainees were transferred to Silverwater PDC (Weekend, Mid-Week and Stage 2 programs). The daily average for 2002/03 is based on 14 weeks.
13. The first detainees at the Silverwater PDC (Weekend, Mid-Week and Stage 2 programs) were received during the week ending 13 October 2002. The daily average for 2002/03 is based on 37 weeks.

1. The Department currently manages 15 court cell complexes in NSW which operate on a 24 hour basis. The number of inmates held in these complexes varies widely during the week. These figures include police custody detainees but exclude inmates temporarily absent from a correctional centre who were held in a court complex at the time of reporting. Totals are based on figures for the full financial year.
2. Totals may not equal the total of complex averages because some complexes were not open for the whole of the year, or because of rounding errors.
3. Other courts are courts which operate during normal business hours only. Persons included here are those who are received and discharged on the same day and are managed by departmental staff whilst the court is in session.

1. Includes inmates held in gazetted correctional centres and periodic detention centres. Excludes inmates held in transitional centres and court complexes.

2. Aboriginality as self reported on reception into custody. The method for determining Aboriginality changed in 2002/03. Previously, the Aboriginality status current at the time of the Census was recorded. Under new counting rules, an offender is recorded as being Aboriginal or Torres Strait Islander where any current or past records reported the offender as being Aboriginal/Torres Strait Islander.

1. Includes inmates held in gazetted correctional centres and periodic detention centres. Excludes inmates held in transitional centres and court complexes.

2. Most serious offence is classified as the offence with the lowest (most serious) NSW offence code.

3. Includes periodic detainees and 100 "Forensic Patient" inmates. The most serious offence is classified as the offence with greatest aggregate sentence. Any offence for which conviction or sentence is not finalised is ignored.

4. Includes 3 inmates who were awaiting deportation and 3 inmates awaiting extradition.

1. Counting rules and categories for community supervision changed in 2001/2002. Data for 2000 and 2001 have been revised to comply with the revised counting rules. Figures and categories in earlier publications are not directly comparable to those presented here.

2. Consists of the number of inmates held in custody (including 24 hour court complexes and transitional centres) on the last Sunday of the financial year together with those on Periodic Detention during the preceding week. Since 2002, figures for 24 hour court complexes include police custody detainees.

3. The Home Detention Act 1996 came into effect on 21 February 1997, establishing a Home Detention Order as an alternative means of serving sentences of full time imprisonment of up to 18 months.

4. Community service orders (CSO) include offenders on community work orders and orders that include both community work and attendance programs.

5. The Community Service Order (Fine Default) program commenced 1/1/1988 and was discontinued in 1998. The Fines Act 1996 was introduced in January 1998. The community service order is the latter part of the overall fine default enforcement process and until the latter part of 2003 only a small number of offenders had progressed to a community service order.

6. Probation orders include bonds, CSO (attendance program only), bail supervision, drug court and suspended sentence orders.

7. Some offenders are subject to at least one order in more than one category (e.g., CSO plus probation), hence the number of orders supervised is always greater than the number of people supervised. For example, although the table indicates a total of 21,013 offenders with home detention, CSO, fine default, parole and probation orders on 30 June 2000, there were actually 18,491 offenders being supervised.

8. Probation and Parole Service statistics include orders in suspense (where supervision has temporarily been suspended) for reasons including: breach action taken – pending reply from court, breach action taken – pending execution of warrant; offenders temporarily absent with permission; probationers being supervised interstate.

1. Equivalent full-time custody average for periodic detention is calculated as 2/7ths of the actual average as detainees are in custody only 2 days per week.
2. Transitional Centres are not gazetted as correctional centres and house female inmates on temporary leave under s29 of the Correctional Centres Act 1999. The first inmates were received into transitional centres on 22 September 1996.
3. The Department of Corrective Services has managed inmates in 24 hour court complexes since 1992. Collection of accurate data on the daily average population of inmates held overnight in these complexes commenced in 2001/02.
4. Other court cells are places of detention managed by the Department of Corrective Services which operate during court hours only. These persons are received and discharged on the same day and are not held in custody at these centres overnight. Collection of accurate daily average data commenced in 2001/02.
5. The equivalent full-time custody average is the average number of managed on a daily basis during the year.
6. For the calendar year ending 31 December 1973.

1. Excludes periodic detention, court complexes and transitional centres.

2. Based on estimates of mean resident adult population (18 years and over) of NSW for each year.
Method revised in 2002/03, previous estimates of the NSW adult population were based on the population as at 30 June only. Figures for 1999 onwards have been revised in accordance with the new method.

3. Taken at midnight each Sunday, excluding periodic detainees.

4. For calendar year ending 31 December 1973.

1. Includes gazetted correctional centres only (excludes transitional centres and court complexes).
2. Aboriginality as self reported at reception into custody. Inmates whose Aboriginality was shown as "Unknown" in the Census are counted as non-Aboriginal/TSI.

The method for determining Aboriginality changed in 2002/03. Previously, the Aboriginality status current at the time of the Census was recorded. Under new counting rules, an offender is recorded as being Aboriginal or Torres Strait Islander where any current or past record reported the offender as being Aboriginal or Torres Strait Islander.

1. Prior to March 1989 reception data was based on information supplied by correctional centres. Since that time data has been retrieved from the departmental offender record system. The method of retrieving reception data from the record system was revised in 1995/96, 1997/98 and 2001/02. Statistics for 1989/90 to 1992/93 were obtained from the Offender Record System (ORS) by the 1995/96 revised method. Statistics for 1993/94 to 1996/97 were obtained from the Offender Management System (OMS) using the 1997/98 method. Statistics for 1997/98 onward were obtained using the third-revised method and differ from those previously published.

2. Includes inmates received as unsentenced who subsequently received a sentence.

3. There was a moratorium on the execution of Fine Default warrants at the end of 1987 and legislative amendments introduced in January 1988 which reduced the number of fine defaulters received into custody. There were further moratoriums on the execution of Fine Default warrants in NSW between 31 March and 30 June 1994 and 1 October and 31 December 1997. A new fine enforcement system was introduced in January 1998 under the Fines Act 1996. Since October 1997 only Federal, ACT and interstate fine defaulters have been received into NSW correctional centres.

4. Includes 35 fine defaulters received at Port Macquarie Court Cells during 1996/97, 8 during 1997/98 and 1 during 1998/99.

5. Includes 20 fine defaulters received into Periodic Detention Centres during 1994/95, 33 during 1995/96 and 16 during 1996/97.

6. The total number of receptions is not equal to the sum of sentenced and unsentenced inmates because some inmates may be counted twice, once as unsentenced and again if the same inmate subsequently received a sentence during the same period of imprisonment.

1. Does not include inmates who died in custody or were deported or extradited on completion of sentence.

2. There were moratoriums on the execution of Fine Default warrants in NSW between 31 March and 30 June 1994 and between 1 October 1997 and 31 December 1997. A new fine enforcement system was introduced on 27 January 1998 under the Fines Act 1996. This system is based on a hierarchy of civil and non-custodial sanctions. All fine defaulters received after introduction of this Act were for interstate or Federal fines.

1. Includes inmates held in gazetted correctional centres and periodic detention centres (excludes transitional centres and court complexes). Excludes appellants but includes forensic patients. Includes 1 civil inmate in 1997.

2. Classification rules For most serious offence changed in 1998. Prior to 1998 "Breach of Parole" was only counted as the most serious offence where there were no other current convictions. Since 1998 "Breach of Parole" is treated like any other offence.

1. The first full-time inmates at the Malabar Fines Unit were received on the 16 August, 1996. The last inmates left on 18 November 1997.

2. Includes 2/7ths of the number in Periodic Detention, as detainees are in custody two days per week. Rules for counting Periodic Detainees changed in 1990/91.

Since 1996/97 the equivalent full-time custody daily average includes inmates held in transitional centres and court cells managed by the Department of Corrective Services.

Population data since 1996/97 has been revised in accordance with these changes.

3. Figures amended (due to late notification of escape) since previous publication.

*Centre did not house any inmates during this period.

NOTES ON OFFENCE CATEGORIES

Regulations cited below are as stated in the Crimes (Administration of Sentences) (Correctional Centre Routine) Regulation 2001 under the Crimes (Administration of Sentences) Act 1999.

Abusive Behaviour

This category includes breaches of the following regulations: intimidation, Clause 127 and indecency, Clause 128.

Whether behaviour is considered abusive or threatening may depend on the circumstances. Thus a correctional centre where a high level of abuse was tolerated might have few inmates charged, although abusive behaviour was common, and vice versa.

Fighting or Assault

This category includes breaches of the following regulations: assaults, Clause 130(1) and fighting or engage in physical combat, Clause 130(2).

It should be noted that the more serious cases of assault may be dealt with directly by police and hence not appear as misconduct charges. Also, charges cannot be made if an alleged assailant is not known. Thus these figures in no way indicate the number of assaults that have taken place. A count of assaults and fights in correctional centres is separately maintained by the Corporate Research, Evaluation and Statistics Unit.

Charges Against Good Order

This category includes breaches of the following regulations: supply false or misleading particulars, Clause 5; fail to surrender property on reception, Clause 8; fail to clean yards, Clause 38; fail to comply with correctional centre routine, Clause 39; enter other cell, Clause 40; operate bell, hooter, siren or whistle, Clause 42; avoid correctional centre routine, Clause 43; unlawfully deliver or receive article to or from inmate, Clause 44; resist or impede search, Clause 46; fail to keep property in a tidy and orderly manner, Clause 47; unlawfully purchase food, Clause 52(2); possess unauthorised food, Clause 52(3); unlawfully trade in food, Clause 52(4); fail to maintain personal cleanliness, Clause 56; wear improper clothing Clause 57; fail to keep clean cells and issues articles, Clause 58(1); fail to look after clothing, bedding and other issues articles, Clause 58(3); misbehave while attending services and programs, Clause 61; convey or deliver to, or receive from, visitors unauthorised articles, Clause 97; send or receive unauthorised letters or parcels, Clause 107; send prohibited letters, parcels or articles, Clause 108; unlawfully use telephone or facsimile, Clause 112; disobey direction, Clause 120; contravene condition of local or interstate leave permit, Clause 124; conceal for purpose of escape; Clause 125; conceal article for use in escape or other offence, Clause 126; participate, or incite other inmates to participate in, riot, Clause 129; tamper with food or drink, Clause 131(3); hinder or obstruct dog, Clause 132; cause harm to animal, bird or reptile, Clause 133; tattoo, Clause 135; gamble, Clause 136; smoke in non-smoking area, Clause 143(a); bribery, Clause 144; obstruct correctional officer, Clause 145; make mischievous complaint, Clause 160; give false or misleading information, Clause 172.

Stealing

This category includes breaches of the following regulations: possession or create prohibited goods, Clause 45 and steal, Clause 131(1).

The number of charges for stealing or possession of contraband at a correctional centre may depend on the availability of articles to steal or the opportunity to acquire illegal property.

Property Damage

This category includes breaches of the following regulations: damage, destroy or deface cell, Clause 58(2); desecrate or abuse spiritual items, Clause 68; throw article, Clause 130(3); damage or destroy property, Clause 131; interfere with correctional centre property, Clause 134 and alter, damage or remove non-smoking or smoking sign, Clause 143(b).

In a correctional centre environment, especially with shared cells, it may be difficult to prove who was responsible for property damage. Thus although property damage may have occurred, charges may not be laid or may be dismissed.

Failure to Attend Muster

This category consists of breaches of Clause 41 failure to attend muster. The number of charges for failure to attend to muster is likely to be influenced by the routine of the correctional centre.

Refuse to Provide Urine Sample

This category comprises breaches of the following regulations: refuse or fail to provide urine sample where drug use is suspected, Clauses 148 and refusal or fail to supply a urine sample whether or not drug use is suspected, Clause 149. For this offence the number of charges at a correctional centre is likely to depend more on the number of samples requested and the conditions under which they are taken than on the percentage of refusals.

Alcohol Charges

This category includes breaches of the following regulations: possess/consume alcohol, Clause 137(1); prepare or manufacture alcohol, Clause 137(2) and refuse breath testing, Clause 146.

Other Drug Charges

This category includes breaches of the following regulations: possess drug, Clause 138; administer drug, Clause 139; possess drug implement, Clause 140; self-intoxication, Clause 141 and fail prescribed urine test, Clause 142.

Many of the charges in this offence type were on the results of a urine test so that the number of charges depends partly on the number of tests made. In addition, some inmates with a positive urine test were not charged, for example, because they had been discharged by the time the results arrived or because they had not been in custody long enough for it to be certain that the drug was used during imprisonment. Thus the change in the number of drug charges does not necessarily reflect a change in drug use in correctional centres.

Unauthorised possession/misuse of condom

Regulations allowing condoms to be made available to inmates were introduced on 22nd March, 1996. Under the current Regulation an inmate may be charged with unlawfully possess condom, Clause 59(3); unlawfully use condom, Clause 59(4) and unlawfully dispose of condom, Clause 59(5).

1. Cases where the NSW Coroner has yet to determine the cause of death are classified under the apparent cause of death. At some later point these incidents may be re-classified in accordance with the Coroner's finding (see *). Therefore totals in each category for may differ from those previously published. 2. Excludes deaths where Coroner gave a finding of suicide. 3. Cause of death was not apparent. Awaiting determination by NSW Coroner. 4. Aboriginal/TSI - Aboriginal or Torres Strait Islander inmate. 5. 1. The data refers to inmates discharged between 1 July 2001 and 30 June 2002 after serving a full-time custodial sentence in a New South Wales Correctional Centre.

2. The focal episode is the episode of full-time custody to which the discharge between 1 July 2001 and 30 June 2002 refers.

3. No imprisonment in an adult centre in New South Wales prior to the focal episode.

4. Imprisonment in an adult correctional centre in New South Wales prior to the focal episode.
