STATISTICAL REPORT 2005/06

NSW Department of Corrective Services

PREFACE

This statistical report is intended as an adjunct to the Department's 2005/06 Annual Report. In general, the statistical supplement includes tables covering a number of years, whereas the Annual Report contains five year data.

Statistics contained in this supplement are collected from various sources within the Department. Prior to 1997/98 inmate population statistics were supplied by each correctional centre and collated on a weekly basis. These statistics are now collated directly from the Department's Offender Integrated Management System (OIMS). Other information on offences, Aboriginality, receptions, discharges and offences in custody continues to be collated from the computerised records on the OIMS. Serious incidents including escapes and deaths in custody are reported to Corporate Research, Evaluation and Statistics as they occur.

Tables showing trends over time have been truncated. Data from preceding years is available from earlier Annual Reports.

STATISTICAL REPORT

1. Inmate Population

Population Ca	haracteristics	
Table 1	Persons under detention in each correctional centre; 26 June, 2005 and 25 June, 2006	1
Table 2	Daily average inmate population at each correctional centre; 2004/05 and 2005/06	4
Table 3	Daily average inmate population at court cell complexes; 2004/05 and 2005/06	
Table 4 Table 5	Legal status of inmates held as at 30th June 2005 by Aboriginality and gender Most serious offence type for inmates held as at 30 June 2005 by legal status	
Population Ti	rends	
Table 6 Table 7	Trends in community supervision and custody as at 30 June; 2000 to 2006 Equivalent full-time custody daily average persons under detention in NSW; 1973 to 2005/06	
Table 8 Table 9 Table 10 Table 11	Annual trends in the full-time custody inmate population; 2000/01 to 2005/0613 Annual trends in the correctional centre inmate population; 1973 to 2005/06 Number of inmates in NSW custody as at 30th June by Aboriginality; 1992 to 2005 Persons received into custody; 1997/98 to 2005/06	14 515
Table 12	Inmates received into NSW correctional centres by legal status; 1982/83 to 2005/06	
Table 13	Inmates discharged from NSW correctional centres after custodial sentence or monetary warrant; 1993/94 to 2005/06	
Table 14 Table 15	Trends in the legal status of inmates held as at 30 June; 1990 to 2005 Most serious offence type for sentenced inmates held as at 30 June; 1992 to 2005	
2. Escapes		
Escapes duri	ng 2005/06	
Table 16	Escapes by security level breached; 2005/06	21
Table 17a	Number of escapes; 2005/06 - security breached by correctional centre	22
Table 17b Table 18	Percentage of escapes; 2005/06 - security level breached by correctional centre Escapes; 2005/06 – correctional centre by inmate security classification at time	
	of incident	24
Trends in Esc	capes	
Table 19a	Number of escapes by security level/program; 1990/91 to 2005/06	25
Table 19b	Percentage of escapes by security level/program; 1990/91 to 2005/06

- 1. Includes inmates held on remand and those held beyond the expiry of any sentence pending deportation. In this publication, appellants are included under sentenced inmates.
- Full-time custody includes inmates held in gazetted correctional centres, transitional centres and court cell complexes operated by the Department of Corrective Services. Inmates temporarily absent from a correctional centre are also included. Separate totals for transitional centres and court cell complexes are also presented in this table.
- 3. Includes gazetted correctional centres only.
- 4. Long Bay Hospital Area 1 Medical Ward closed (temporarily) on 14 June 2006. These inmates were transferred to the Metropolitan Special Programs Centre Medical Unit which opened on 14 June 2006.
- 5. Includes annexe at Prince of Wales Hospital (Secure Unit).
- The transfer of inmates from Long Bay Hospital Area 2 to the Metropolitan Programs Centre Medical Transit Unit commenced on 21 January 2006. The last inmates were transferred from Long Bay Hospital - Area 2 on 29 January 2006.
- 7. The first inmates at the Special Purpose Centre Dawn De Loas were received on 20 March 2006.
- 8. Mid-North Coast Maximum was renamed Mid-North Coast Medium following revision of the administrative classification of the unit on 1 July 2005.
- 9. At the end of 2005/06 the Department managed 14 court cell complexes throughout NSW which operate on a 24 hour basis. The number of inmates held in these complexes varies widely during the week. Inmates temporarily absent from a correctional centre who were held overnight in a court complex are recorded against the correctional centre from which they are absent rather than against the court complex. Figures include Police custody detainees. "Other courts" are courts that operate during normal court business hours only and therefore do not hold persons overnight. Persons shown here are those received and discharged on the same day under the management of Departmental staff. Court cells are not gazetted correctional centres and therefore these inmates are not included in the totals for gazetted correctional centres but are included in the totals for full-time custody.
- 10. Transitional centres house inmates temporarily released under s26(2j) of the <u>Crimes (Administration of Sentences)</u> <u>Act 1999</u>. Transitional centres are not gazetted as correctional centres and therefore these inmates are not included in the totals for gazetted correctional centres but are included in the totals for full-time custody.
- 11. Campbelltown Periodic Detention Centre closed on 9 January 2006.
- 12. The first detainees at the Metropolitan Periodic Detention Centre were received on 29 July 2005.
- 13. Parklea Periodic Detention Centre closed on 24 July 2005.
- 14. Silverwater Periodic Detention Centre closed on 24 July 2005.
- 15. Total offenders includes inmates held in full-time custody and periodic detention centre detainees.

 $[\]ensuremath{^{\star}}$ - denotes an average inmate population of fewer than 0.5 inmates

- 1. Totals may not equal the total of the individual centre averages because some centres were not open for the whole of the year, or because of rounding.
- 2. Full-time custody total includes gazetted correctional centres, transitional centres and court cell complexes.
- Correctional centres includes gazetted correctional centres only (excludes transitional centres and court cell complexes).
- These centres held a small number of female inmates or detainees at some time during 2004/2005 or 2005/2006.
- 5. New accommodation for minimum security male inmates at Broken Hill was opened on 7 November 2004.
- 6. The first inmates at Dillwynia Correctional Centre (Windsor) were received on 18 October 2004. The daily average for 2004/05 is based on 256 days.
- Female inmates at the June Baker Centre who require protection or segregation are housed in the medium security (male) section of Grafton Correctional Centre. These inmates are, however, included in the totals for the June Baker Unit.
- 8. The Department of Corrective Services took management of the Kariong Juvenile Justice Centre on 10 December 2004. The centre was gazetted as Kariong Juvenile Correctional Centre on 20 December 2004. The daily average for 2004/05 is based on 212 days.
- 9. During 2004/05 Long Bay Hospital was renamed Long Bay Hospital Area 1 and the Metropolitan Medical Transient Centre was renamed Long Bay Hospital Area 2. Both areas are gazetted under Long Bay Hospital.
- 10. The Medical Ward of Long Bay Hospital (Area 1) closed (temporarily) on 14 June 2006. These inmates were transferred to the Metropolitan Special Programs Centre Medial Unit. The daily average for the Medical Ward (Long Bay Hospital) is based on 348 days and the daily average for the Medical Unit (Metropolitan Special Programs Centre) for 2005/06 is based on 17 days.
- 11. The last inmates were transferred from Long Bay Hospital Area 2 on 29 January 2006. The daily average is based on 211 days. The first inmates at the Metropolitan Special Programs Centre Medical Transit Unit were transferred from Long Bay Hospital Area 2 on 21 January 2006. The daily average for 2005/06 is based on 160 days.
- 12. The last inmates at the Transit Unit of the Metropolitan Special Programs Centre left on 9 September 2004. The daily average for 2004/05 is based on 74 days.
- 13. During 2004/05 the Industrial Training Unit of the Metropolitan Special Programs Centre was renamed Area 7.
- 14. The first inmates at the Special Purpose Centre Dawn De Loas unit were received on 20 March 2006. The daily average for 2005/06 is based on 103 days.
- 15. The first female inmates (minimum security) at Mid-North Coast Correctional Centre (Kempsey) were received on 15 July 2004. The daily average for females is based on 351 days. The first male inmates (minimum security) were received on 17 August 2004. The daily average for males is based on 319 days. Some minimum security male inmates were held in the maximum security area when the centre first opened. During the year, a small number of female inmates where also held in the maximum security area.
- 16. Mid-North Coast Maximum was renamed Mid-North Coast Medium following administrative re-classification in July 2005.
- 17. At the end of 2005/06 the Department managed 14 complexes throughout NSW which operate on a 24 hour basis. The number of inmates held in these complexes varies widely during the week. Inmates temporarily absent from a correctional centre who were held overnight in a court complex are recorded against the correctional centre from which they are absent rather than against the court complex. Figures include Police custody detainees. "Other courts" are courts that operate during normal court business hours only and therefore do not hold persons overnight. Persons shown here are persons received and discharged on the same day under the management of Departmental staff. Both 24 and other court cells are not gazetted correctional centres and have not been included in the totals relating to correctional centres but are included in the totals for full-time custody.
- 18. Transitional centres house inmates temporarily released under s26(2j) of the Crimes (Administration of Sentences) Act 1999. These centres are not gazetted correctional centres and have not been included in the totals relating to correctional centres but are included in the totals for full-time custody.
- 19. Averages for Periodic Detention Centres (PDCs) are based on the number of persons with live orders for the weeks each centre was opened. All PDCs were closed for Easter in 2004 and 2005 and Christmas 2005. Unless otherwise indicated, the daily average for 2004/05 is based on 50 weeks and 48 weeks for 2005/06. Totals may not equal the sum of individual centres due to rounding.
- 20. The last detainees left Campbelltown PDC on 9 January 2006. The daily average for 2005/06 is based on 26 weeks.
- 21. The first detainees at Metropolitan PDC were received on 29 July 2005. The daily average for 2005/06 is based on 44 weeks.
- 22. The last detainees left Silverwater and Parklea PDCs on 24 July 2005. The daily average for 2005/06 for both centres is based on 4 weeks.

TOTAL ⁴	95	8	103	97	8	105

^{*} denotes an average inmate population of fewer than 0.5 inmates

- 1. At the end of 2005/06 the Department managed 14 court cell complexes throughout NSW which operate on a 24 hour basis. The number of inmates held in these complexes varies widely during the week. These figures include police custody detainees but exclude inmates temporarily absent from a correctional centre who were held in a court cell complex at the time of reporting. Totals are based on figures for the full financial year.
- 2. Broken Hill Court Cell Complex closed on 4 October 2005.
- 3. Other courts are courts which operate during normal court business hours only. Persons included here are those who are received and discharged on the same day and are managed by departmental staff whilst the court is in session.
- 4. Totals may not equal the total of complex averages because of rounding errors.

Table 4: Legal status of inmates¹ held as at 30th June 2005 by Aboriginality² and gender

^{1.} Includes inmates held in gazetted correctional centres and periodic detention centres (excludes inmates held in transitional centres and court cell complexes).

^{2.} Unless otherwise stated, the most serious offence is classified as the offence with greatest aggregate sentence. Offences for which conviction or sentence are not finalised are ignored.

^{3.} For unconvicted inmates the most serious offence is classified as the offence with the lowest (most serious) NSW offence code. Unconvicted inmates included 3 inmates who were awaiting deportation and 1 inmate awaiting extradition.

^{4.} Sentenced inmates included periodic detainees and 134 "Forensic Patient" inmates.

- Counting rules and categories for community supervision changed in 2001/2002. Data for 2000 and 2001 have been revised
 to comply with the revised counting rules. Figures and categories for earlier years are not directly comparable to
 those presented here.
- 2. Consists of the number of inmates held in custody (including court cell complexes and transitional centres) on the last Sunday of the financial year together with those on Periodic Detention during the preceding week. Since 2002, figures for court complexes include police custody detainees and fresh custody persons discharged on same day.
- 3. The Home Detention Act 1996 came into effect on 21 February 1997, establishing a Home Detention Order as an alternative means of serving sentences of full time imprisonment of up to 18 months.
- 4. Community service orders (CSO) include offenders on community work orders and orders that include both community work and attendance programs.
- 5. The Community Service Order (Fine Default) program commenced 1/1/1988 and was discontinued in 1998. The Fines Act 1996 was introduced in January 1998. The community service order is the latter part of the overall fine default enforcement process and until the latter part of 2003 only a small number of offenders had progressed to a community service order.
- 6. Probation orders include bonds, CSO (attendance program only), bail supervision, drug court and suspended sentence orders.
- 7. Some offenders are subject to at least one order in more than one category (e.g., CSO plus probation), hence the number of orders supervised is always greater than the number of people supervised. For example, although the table indicates a total of 21,013 offenders with home detention, CSO, fine default, parole and probation orders on 30 June 2000, there were actually 18,491 offenders being supervised.
- 8. Community Offender Services statistics include orders in suspense (where supervision has temporarily been suspended) for reasons including: breach action taken pending reply from court, breach action taken pending execution of warrant; offenders temporarily absent with permission; probationers being supervised interstate.

^{1.} The equivalent full-time average for periodic detention centres is calculated as 2/7ths of the actual average as detainees are in custody only 2 days per week.

- Transitional Centres are not gazetted as correctional centres and house female inmates on temporary leave under s26(2j) of the Crimes (Administration of Sentences) Act 1999. The first inmates were received into transitional centres on 22 September 1996.
- 3. The Department of Corrective Services has managed inmates in 24 hour court cell complexes since 1992. Collection of accurate data on the daily average population of inmates held overnight in these complexes commenced in July 2001.
- 4. Other courts are places of detention managed by the Department of Corrective Services which operate during court hours only. These persons are received and discharged on the same day and are not held in custody at these centres overnight. Collection of accurate daily average data commenced in July 2001.
- 5. The total equivalent full-time daily average is the average number of inmates managed on a daily basis throughout the year.
- 6. For the calendar year ending 31 December 1973.

n/a - Not applicable

^{1.} Excludes periodic detention, transitional centres and court cell complexes.

^{2.} Based on average of monthly imprisonment rates published in *Corrective Services Quarterly (ABS 4512.0)*. Figures prior to 2002/03 are based on the NSW adult population as at 30 June only. Figures for 2002/03 onwards have been revised in accordance with the new method and exclude ACT inmates held in NSW.

^{3.} Prior to 2001/02 highest and lowest daily totals were based on Sundays only. Since 2001/02 highest and lowest totals are calculated based on each day of the year.

^{4.} For calendar year ending 31 December 1973.

^{5.} Revised figure. n/a Not applicable.

Source: NSW Inmate Census, NSW Department of Corrective Services.

1. Aboriginality as self reported at reception into custody. Inmates whose Aboriginality was shown as "Unknown" in the Census are counted as non-Aboriginal/TSI.

The method for determining Aboriginality changed in 2003. Previously, the Aboriginality status current at the time of the Census was recorded. Under new counting rules, an offender is recorded as being Aboriginal or Torres Strait Islander where any current or past record reported the offender as being Aboriginal or Torres Strait Islander.

2. Excludes transitional centres and court cell complexes.

^{1.} The Department of Corrective Services assumed responsibility for court escort functions from the NSW Police Service in 1991 and the management of a small number of 24 hour court cell complexes in 1992. The Correctional Centres Amendment Act 1998 (which commenced in July 1998) enable correctional officers to manage inmates in 24 hour court cell complexes. Since that time the number of 24 hour court cell complexes managed by the Department increased and the Department currently manages fourteen (14) 24 hour court cell complexes across NSW. Many of the persons received into 24 court cell are Police custody ("Form 7" of the Bail Regulation 1999) detainees who are persons in police custody (police-bail refused) who are managed by the NSW Department of Corrective Services. Many of these "Form 7" detainees are discharged from custody following their court appearance and those remanded into custody are usually transferred to a correctional centre. This figures shown here include only those inmates who were received and subsequently discharged from a 24 court cell complex without ever having been transferred into a correctional centre.

^{2.} Inmates received into correctional centres includes inmates received into a court cell complexes who were subsequently transferred into a correctional centre.

- 1. Prior to March 1989 reception data was based on information supplied by correctional centres. Since that time data has been retrieved from the departmental offender record system. The method of retrieving reception data from the record system was revised in 1995/96, 1997/98 and 2001/02. Statistics for 1989/90 to 1992/93 were obtained from the Offender Record System (ORS) by the 1995/96 revised method. Statistics for 1993/94 to 1996/97 were obtained from the Offender Management System (OMS) using the 1997/98 method. Statistics for 1997/98 onward were obtained using the third-revised method and differ from those previously published.
- 2. Includes inmates received as unsentenced who subsequently received a sentence.
- 3. There was a moratorium on the execution of Fine Default warrants at the end of 1987 and legislative amendments introduced in January 1988 which reduced the number of fine defaulters received into custody. There were further moratoriums on the execution of Fine Default warrants in NSW between 31 March and 30 June 1994 and 1 October and 31 December 1997. A new fine enforcement system was introduced in January 1998 under the Fines Act 1996. Since October 1997 only Federal, ACT and interstate fine defaulters have been received into NSW correctional centres.
- 4. Includes 35 fine defaulters received at Port Macquarie Court Cells during 1996/97, 8 during 1997/98 and 1 during 1998/99.
- 5. Includes 20 fine defaulters received into Periodic Detention Centres during 1994/95, 33 during 1995/96 and 16 during 1996/97.
- 6. The total number of receptions is not equal to the sum of sentenced and unsentenced inmates because some inmates may be counted twice, once as unsentenced and again if the same inmate subsequently received a sentence during the same period of imprisonment.

^{1.} Includes inmates discharged from transitional centres but excludes inmates discharged from court cell complexes.

^{2.} Does not include inmates who died in custody or were deported or extradited on completion of sentence.

^{3.} There were moratoriums on the execution of Fine Default warrants in NSW between 31 March and 30 June 1994 and between 1 October 1997 and 31 December 1997. A new fine enforcement system was introduced on 27 January 1998 under the Fines Act 1996. This system is based on a hierarchy of civil and non-custodial sanctions. All fine defaulters received after introduction of this Act were for interstate or Federal fines.

^{1.} Includes inmates held in correctional centres and periodic detention centres (excludes transitional centres and court cell complexes). Excludes appellants but includes forensic patients. Includes 1 civil inmate in 1997 and 1 in 2005. 2. Most serious offence is classified as the offence with the greatest aggregate sentence ignoring unfinalised charges. 3. Classification rules for most serious offence changed in 1998. Prior to 1998 "Breach of Parole" was only counted as the most serious offence where there were no other current convictions. Since 1998 "Breach of Parole" has treated like any other offence in the calculation of the most serious offence.

Table 19a. Number of escapes by security level/program; 1990/91 to 2005/06

^{1.} Includes 3 escapes from Bolwara House Transitional Centre (1 in 2003/04 and 2 in 2005/06).

^{2.} The first full-time inmates at the Malabar Fines Unit were received on the 16 August, 1996. The last inmates left on 18 November 1997.

^{3.} Includes 2/7ths of the number in Periodic Detention, as detainees are in custody two days per week. Rules for counting Periodic Detainees changed in 1990/91. Since 1996/97 the equivalent full-time custody daily average includes inmates held in transitional centres and court cells managed by the Department of Corrective Services. Population data since 1996/97 has been revised in accordance with these changes.

^{*} Malabar Fines Centre did not operate during these years (see explanatory note 2).

^{4.} Regulations allowing condoms to be made available to inmates were introduced in March 1996.

^{5.} Specific regulations relating to possession of cameras, audio/video recorder and mobile phones where introduced in February 2004.

NOTES ON OFFENCE CATEGORIES

Regulations cited below are as stated in the Crimes (Administration of Sentences) (Correctional Centre Routine) Regulation 2001 under the Crimes (Administration of Sentences) Act 1999.

Abusive Behaviour

This category includes breaches of the following regulations: intimidation, Clause 127 and indecency, Clause 128.

Whether behaviour is considered abusive or threatening may depend on the circumstances. Thus a correctional centre where a high level of abuse was tolerated might have few inmates charged, although abusive behaviour was common, and vice versa.

Fighting or Assault

This category includes breaches of the following regulations: assaults, Clause 130(1) and fighting or engage in physical combat, Clause 130(2).

It should be noted that the more serious cases of assault may be dealt with directly by police and hence not appear as misconduct charges. Also, charges cannot be made if an alleged assailant is not known. Thus these figures in no way indicate the number of assaults that have taken place. A count of assaults and fights in correctional centres is separately maintained by the Corporate Research, Evaluation and Statistics Unit.

Charges Against Good Order

This category includes breaches of the following regulations: supply false or misleading particulars, Clause 5; fail to surrender property on reception, Clause 8; fail to clean yards, Clause 38; fail to comply with correctional centre routine, Clause 39; enter other cell, Clause 40; operate bell, hooter, siren of whistle, Clause 42; avoid correctional centre routine, Clause 43; unlawfully deliver or receive article to or from inmate, Clause 44; resist or impede search, Clause 46; fail to keep property in a tidy and orderly manner, Clause 47; unlawfully purchase food, Clause 52(2); possess unauthorised food, Clause 52(3); unlawfully trade in food, Clause 52(4); fail to maintain personal cleanliness, Clause 56; wear improper clothing Clause 57; fail to keep clean cells and issues articles, Clause 58(1); fail to look after clothing, bedding and other issues articles, Clause 58(3); misbehave while attending services and programs, Clause 61; convey or deliver to, or receive from, visitors unauthorised articles, Clause 97; send or receive unauthorised letters or parcels, Clause 107; send prohibited letters, parcels or articles, Clause 108; unlawfully use telephone or facsimile, Clause 112; disobey direction, Clause 120; contravene condition of local or interstate leave permit, Clause 124; conceal for purpose of escape; Clause 125; conceal article for use in escape or other offence, Clause 126; participate, or incite other inmates to participate in, riot, Clause 129; tamper with food or drink, Clause 131(3); hinder or obstruct dog, Clause 132; cause harm to animal, bird or reptile, Clause 133; tattoo, Clause 135; gamble, Clause 136; smoke in non-smoking area, Clause 143(a); bribery, Clause 144; obstruct correctional officer, Clause 145; make mischievous complaint, Clause 160; give false or misleading information, Clause 172.

Stealing/possess prohibited goods

This category includes breaches of the following regulations: possession or create prohibited goods, Clause 45 and steal, Clause 131(1).

The number of charges for stealing or possession of contraband at a correctional centre may depend on the availability of articles to steal or the opportunity to acquire illegal property.

Property Damage

This category includes breaches of the following regulations: damage, destroy or deface cell, Clause 58(2); desecrate or abuse spiritual items, Clause 68; throw article, Clause 130(3); damage or destroy property, Clause 131; interfere with correctional centre property, Clause 134 and alter, damage or remove non-smoking or smoking sign, Clause 143(b).

In a correctional centre environment, especially with shared cells, it may be difficult to prove who was responsible for property damage. Thus although property damage may have occurred, charges may not be laid or may be dismissed.

Failure to Attend Muster

This category consists of breaches of Clause 41 failure to attend muster. The number of charges for failure to attend to muster is likely to be influenced by the routine of the correctional centre.

Refuse to Provide Urine Sample

This category comprises breaches of the following regulations: refuse or fail to provide urine sample where drug use is suspected, Clauses 148 and refusal or fail to supply a urine sample whether or not drug use is suspected, Clause 149. For this offence the number of charges at a correctional centre is likely to depend more on the number of samples requested and the conditions under which they are taken than on the percentage of refusals.

Alcohol Charges

This category includes breaches of the following regulations: possess/consume alcohol, Clause 137(1); prepare or manufacture alcohol, Clause 137(2) and refuse breath testing, Clause 146.

Other Drug Charges

This category includes breaches of the following regulations: possess drug, Clause 138; administer drug, Clause 139; possess drug implement, Clause 140; self-intoxication, Clause 141 and fail prescribed urine test, Clause 142.

Many of the charges in this offence type were on the results of a urine test so that the number of charges depends partly on the number of tests made. In addition, some inmates with a positive urine test were not charged, for example, because they had been discharged by the time the results arrived or because they had not been in custody long enough for it to be certain that the drug was used during imprisonment. Thus the change in the number of drug charges does not necessarily reflect a change in drug use in correctional centres.

Unauthorised possession/misuse of condom

Regulations allowing condoms to be made available to inmates were introduced on 22nd March, 1996. Under the current Regulation an inmate may be charged with unlawfully possess condom, Clause 59(3); unlawfully use condom, Clause 59(4) and unlawfully dispose of condom, Clause 59(5).

Possess camera/audio equipment or mobile phone

Regulations relating to possession of cameras, video or audio recorders, Clause 113A and possession of a mobile phone, Clause 113B were introduced on 6 February, 2004. Prior to the introduction of this specific offences, charges of this nature were recorded under possession or create prohibited goods, Clause 45.

^{1.} Cases where the NSW Coroner has yet to determine the cause of death are classified under the apparent cause of death. At some later point these incidents may be re-classified in accordance with the Coroner's finding. Figures may differ from those previously published. 2. Excludes deaths where Coroner gave a finding of suicide. 3. Cause of death was not apparent. Awaiting determination by NSW Coroner. 4. Aboriginal/TSI - Aboriginal or Torres Strait Islander inmate. 5. Drowned in swimming pool at Emu Plains - known epileptic (17.12.88). 6. Died whilst returning from work release (23.12.89). 7. Injured outside correctional centre (23.4.93). 8. Self inflicted asphyxiation (2.10.93) - Coroner was unable to determine if intention was suicide. 9. Misadventure - hanging (1.3.95) - Coroner found that the inmate accidentally hanged himself. 10. Died as a result of head injuries received in an assault (29.7.96). 12. Self inflicted hanging (12.4.97) - Coroner was unable to determine if intention was suicide. 13. Indicates an inmate in this category died whilst on Day Leave. 14. Indicates an inmate in this category died whilst on Home Detention Program . 15. Died as a result of injuries received in an assault (20.12.97).

^{16.} Died as result of drug overdose (23.6.98) - Coroner was unable to determine if intention was suicide. 17. Self inflicted hanging (19.2.01) - Coroner determined that intention was not suicide. 18. Self inflicted hanging (14.11.01) - Coroner was unable to determine if intention was suicide. 19. Died as a result of ingesting chemical solvent (2.10.02). 20. Self inflicted death (2.5.05) - Coroner was unable to determine if intention was suicide. * - see explanatory note 1.

Table 22: Recidivism by inmates discharged during 2003/2004¹

Percentage of inmates convicted of any offence within two years of discharge resulting in a full-time custodial sentence to be served in a NSW correctional centre
