Foreword

Myths have developed and many assumptions have been made in relation to Aboriginal and Torres Strait Islander people held in custody in correctional centres in New South Wales. The aim of this publication is to provide a range of information which can be used in discussing the situation of Aboriginal and Torres Strait Islander people in custody. This information is likely to be of particular use to researchers, managers, and policy makers who need factual data to undertake their responsibilities properly.

While much of this information has been previously made available from a variety of sources, this is the first attempt to pull together in one document a range a relevant information. The data included is taken from a variety of sources including the inmate census, monthly statistical data, research studies on recidivism and research into Truth in Sentencing and its impact on Aboriginal and Torres Strait Islander people.

The term Aboriginal and Torres Strait Islander inmate is used to refer to inmates who have identified themselves to be Australian Aboriginal or Torres Strait Islander people on first reception into custody. In addition, one section of the document uses the term 'Koori' to refer to Aboriginal or Torres Strait Islander people and 'non Koori' to refer to those inmates who have not identified themselves as Aboriginal or Torres Strait Islander people.

Where possible, New South Wales data is compared with information from other States so that an overall picture of the situation of Aboriginal and Torres Strait Islander people in custody is available.

NSW Inmate Census, 30 June, 1996

On the following pages are tables and graphs which provide a breakdown of information relating to Inmates present in NSW Correctional Centres on 30 June, 1996. The measure of Aboriginality used is that of self report on first entry into custody.

The tables are broken into three sections to provide a summary for all inmates, male inmates and female inmates.

The data show:

At any one time Aboriginal and Torres Strait Islander inmates tend to -

- be single rather than divorced
- **be** younger than non Aboriginal and Torres Strait Islander inmates
- have a last known address outside the Sydney Metropolitan area
- have a history of prior adult imprisonment
- have been sentenced by lower courts
- have a most serious offence of major assault or assault
- not have a most serious offence for a drug matter or fraud
- not be imprisoned for a federal offence.
- not be serving sentences for periodic detention

Aggregate* Sentence for NSW Inmates 30 June 1996

Inmates sentenced to either a fixed or minimum term of imprisonment (Excluding life, forensic patient and periodic detention) * (Minimum + Additional Term).

Research & Statistics, NSW Department of Corrective Services.

NSW Inmate Census 1982 - 1996

The data presented are for NSW Inmate Censuses conducted on 30 June for each year from 1982 onwards. They show:

- Aboriginal and Torres Strait Islander inmate numbers have been steadily increasing since 1982 to reach a current number almost five times that present in 1982
- Aboriginal and Torres Strait Islander inmates, as a *percentage* of the total inmate population, have been increasing since 1982 to reach a current level double that for 1982
- Aboriginal and Torres Strait Islander *female* inmate numbers have significantly increased since 1982
- Aboriginal and Torres Strait Islander *female* inmates, as a percentage of the total Aboriginal and Torres Strait Islander inmate population, have been increasing since 1982 to reach a current level double that for 1982
- Aboriginal and Torres Strait Islander inmates in full-time custody have been generally increasing in both number and percentage terms for both males and females since 1982. Female Aboriginal and Torres Strait Islander inmate numbers and percent have increased in particular over the last few years.

Monthly Statistics 1993 - 1996

The data presented are for a count of Aboriginal and Torres Strait Islander inmates present as at the first Sunday of the month from 1993 onwards.

The data show:

- An increase in the total number of Aboriginal and Torres Strait Islander inmates present in *full-time custody* from 612 in January 1993 to 902 in October 1996.
- An increase in the number of Aboriginal and Torres Strait Islander periodic detainees (weekend detention)
- The pattern of increase in Aboriginal and Torres Strait Islander inmate numbers roughly follows a seasonal pattern like that for total inmate numbers with dips corresponding to court holiday closures
- Aboriginal and Torres Strait Islander inmates tend to present in larger numbers at certain correctional centres (Bathurst, Goulburn and Grafton)

Number of Aboriginals/TSI*: NSW Correctional Centres Full-time Custody First Sunday of each month

^{*} Self reported Aboriginality/TSI at reception.
Research and Statistics, NSW Department of Corrective Services.

Male Aboriginals/ TSI*: NSW Correctional Centres Full-time custody First Sunday of each month

Total Inmate Population: Full-time: 6379 PDC: 1524 Total: 7903

Aboriginal/Torres Strait Islanders as a percentage of the inmate population: 12.8 %

Number of Aboriginal/TSI for previous month: Full-time: 902 PDC: 86 Total: 988

NOTE: It should be noted that Correctional Centre records currently do not distinguishbetween Australian Aboriginals and Torres Strait Islanders. Consequently Torres Strait Islanders are included in the count for Aboriginal Inmates.

*****Research & Statistics Unit, NSW Department of Corrective Services****

Australian Indigenous Inmate Population

Following is a table from the *National Correctional Statistics: Prisons* publication, a report prepared for the Corrective Services Ministers' Council by the National Correctional Services Statistics Unit, Australian Bureau of Statistics. The data incorporates information provided by each Australian state as part of a continuing *Monthly Prison Trends* series begun by the Australian Institute of Criminology.

The data for April 1995 - March 1996 show:

- The lowest indigenous inmate population figure for Australia was 2,853 in August 1995 (1,660.7 per adult indigenous population)
- The highest indigenous inmate population figure for Australia was 3,069 in March 1996 (1,786.4 per adult indigenous population)
- There has been an increase in the ratio of indigenous to the non-indigenous inmate population rate from 17.2:1 to 18.5:1 for Australia as a whole
- New South Wales has had the largest increase in the ratio of indigenous to non-indigenous inmate population rates (14.7 to 17.3)
- Western Australia continues to have the highest ratio of indigenous to non-indigenous inmate population (25:1)

The publication *The Over-Representation of Indigenous People in Custody in Australia*, Trends & Issues No. 47, by the Australian Institute of Criminology (1995) relates that "Nationally, Aboriginal people are in prison at 13 times the rate of non-Aboriginal people".

That publication showed the following breakdown of Indigenous Over-representation in Adult prisons for 1993: NSW 9.9, Victoria 15.6, Queensland 11.6, Western Australia 20.8, South Australia 21.4, Tasmania 3.3, Northern Territory 9.1, with a total for Australia of 13.2

 $^{^{\}mbox{\scriptsize 1}}$ Indigenous prisoner population figures are a count taken on or near the first day of the month.

The number of Indigenous prisoners sentenced in the ACT and held in NSW prisons has been subtracted from the NSW figures and added to the ACT remand figures to provide total figures for the ACT.

Recidivism

The most comprehensive data relating to recidivism (return to custody) for NSW inmates is that contained in *Recidivism in NSW: General Study*, Thompson, Research Publication No 31, May 1995. Recidivism was defined as a return with a full-time conviction to NSW custody within two years of discharge.

Recidivism patterns are very complex with each variable of the model adopted adding increasing complexity to a picture that can not be simply explained by numbers alone. In many respects recidivism is not a direct measure of corrective services influence as the experiences and circumstances faced by an inmate once freed far outweigh anything that can be achieved whilst in custody.

In general, although overall recidivism for Aboriginal and Torres Strait Islander inmates was higher than that for non-Aboriginal and Torres Strait Islander inmates, especially for the first imprisonment group (45% Aboriginal and Torres Strait Islander vs 24% non-Aboriginal and Torres Strait Islander first imprisonment and 52% Aboriginal and Torres Strait Islander vs 42% non-Aboriginal and Torres Strait Islander for the repeat imprisonment group), this was mainly because a high proportion of Aboriginal and Torres Strait Islanders were in the high recidivism age and offence groups.

The tables presented are broken into the three offence groups where the most significant differences were found. Each table is further categorised by the other critical elements of age at entry and whether the inmate had been previously imprisoned.

Page: 37

Truth in Sentencing

The introduction of the NSW Sentencing Act (1989) had far reaching consequences for individuals sentenced to imprisonment in NSW. Information on the impact the introduction of this legislation on Aboriginal and Torres Strait Islander peoples has not been available to date. As part of an approved project to satisfy the requirements for a Master of Criminology degree, [See Eyland, (1995) *Truth in Sentencing: A koori Perspective*, University of Sydney] an examination of data on the sentencing profiles of inmates sentenced to full-time imprisonment with a special emphasis on Aboriginal and Torres Strait Islander people was completed.

The data consisted of records for 1832 inmates discharged prior to the introduction of the NSW Sentencing Act (1989) compared to 11,832 inmates sentenced after (received between October, 1989 and September, 1992).

The results found:

- Aboriginal and Torres Strait Islander people were 19 times more likely to be imprisoned in full-time custody in NSW than non-Aboriginal and Torres Strait Islander people
- the overall average minimum or fixed term handed down following the change in legislation (280 days) is significantly longer than the overall average served previously (244 days) F_{1.13656}=23.04, p<.001
- there was no significant difference in the average minimum or fixed term of imprisonment handed down to Aboriginal and Torres Strait Islander inmates following the change in legislation (223 days) compared to that served prior (198 days) F_{1,1891}=1.15, p>.05
- Aboriginal and Torres Strait Islander inmates were serving a significantly shorter average minimum or fixed term of imprisonment (223 days) than the non-Aboriginal and Torres Strait Islander inmates (293 days) following the change in legislation F_{1.11567}=19.33, p<.001
- there was no significant difference in the sentences handed down to Aboriginal and Torres Strait Islander inmates compared to non-Aboriginal and Torres Strait Islander inmates in the vast majority of offence categories
- there was very little difference in the ten most common individual offences that Aboriginal and Torres Strait Islander and non-Aboriginal and Torres Strait Islander inmates were imprisoned for except that of malicious damage which accounted for 2.6% of all Aboriginal and Torres Strait Islander sentenced

Most Serious Offence was Assault

| | Recidivi | sm Rate |
|--|-------------|--------------------|
| | Aboriginal | Non- Aboriginal |
| Started sentence aged 18 | 78% (n=36) | 53% (n=45) |
| Started sentence aged 19 or 20 No prior imprisonment | 55% (n=64) | 37% (n=106) |
| Started sentence aged 19 or 20 Had prior imprisonment | 78% (n=40) | 44% (n=45) |
| Started sentence aged 21 or 29 No prior imprisonment | 30% (n=92) | 19% (n=313) |
| Started sentence aged 21 or 29 Had prior imprisonment | 58% (n=194) | 45% (n=315) |
| Started sentence aged over 29 No prior imprisonment | 14% (n=35) | 14% (n=250) |
| Started sentence aged over 29 Had prior imprisonment | 36% (n=72) | 38% (n=259) |
| Total | 50% (n=533) | 31% (n=1333) |

Most Serious Offence was Stealing

Work previously conducted [see Cunneen 1992, ANZ Journal of Criminology, Vol 25, pp 186-191] has in the past shown large increases in the number of charges laid for offensive behaviour and offensive language. For example, the number of people charged with offensive behaviour increased from 2,808 in 1985 to 13,665 in 1990. However, a later study [See Eyland (1995)] showed that Aboriginal and Torres Strait Islander and non-Aboriginal and Torres Strait Islander people alike were not actually being imprisoned for these offences. During the 35 months of reception data analysed, only 31 (1.8%) Aboriginal and Torres Strait Islander and 70 (0.7%) non-Aboriginal and Torres Strait Islander people were imprisoned for offences contained in the Offensive Behaviour category.

Page: 47

Time Served, NSW Inmates 1993

As part of the continuing work being conducted by the Research and Statistics Unit into recidivism patterns of inmates, the Research Statistician,

B Thompson has been able to supply information for those inmates discharged in 1993 and the time they had served in custody up to that discharge. This information builds on that previously discussed in the Truth In Sentencing and Recidivism sections.

- A total of 4812 inmates, 4472 males and 340 females were discharged in 1993 after completing a sentence of full-time custody.
- Of the 4812 discharged in 1993, 702 male inmates (16%) and 76 female inmates (22%) self-identified themselves as Aboriginal and Torres Strait Islander.

Offence categories

- The most common "Most Serious Offence" *categories* for Aboriginal and Torres Strait Islander male inmates were the assault (29%) and property (33%) categories.
- In contrast, whilst non Aboriginal and Torres Strait Islander male inmates had an equally high concentration in the property category (32%), the assault category contained less than half the proportion of non Aboriginal and Torres Strait Islander male inmates than that for Aboriginal and Torres Strait Islander male inmates (13% non Aboriginal and Torres Strait Islander was 29% Aboriginal and Torres Strait Islander male inmates).
- The drug offence category for non Aboriginal and Torres Strait Islander male inmates could be seen to account for the majority of this difference 12% non Aboriginal and Torres Strait Islander vs 2% Aboriginal and Torres Strait Islander. However, Aboriginal and Torres Strait Islander males were also quite unlikely to have served time for a homicide offence.
- As with the males, the female inmates shared the property category of offence as the most common, 47% Aboriginal and Torres Strait Islander and 39% non Aboriginal and Torres Strait Islander. Likewise, female Aboriginal and Torres

ABORIGINAL & TORRES STRAIT ISLANDER INMATES

Strait Islander inmates were more likely than non Aboriginal and Torres Strait Islander female inmates to have served time for an assault category offence - 15% Aboriginal and Torres Strait Islander vs 8% non Aboriginal and Torres Strait Islander.

- In contrast to the male non Aboriginal and Torres Strait Islander inmates, a higher proportion of female non Aboriginal and Torres Strait Islander inmates served time for a fraud offence (18% females vs 5% males).
- This propensity for a fraud category offence was not shared by the female Aboriginal and Torres Strait Islander inmates who had a proportion less than half that for non Aboriginal and Torres Strait Islander females 7% Aboriginal and Torres Strait Islander vs 18% non Aboriginal and Torres Strait Islander females.
- Female Aboriginal and Torres Strait Islander inmates were more likely to have served time for a drug category offence than the male Aboriginal and Torres Strait Islander inmates (9% female Aboriginal and Torres Strait Islander vs 2% male Aboriginal and Torres Strait Islander), although caution should be exercised as the number of female inmates is low overall.

Specific Offences

- For both Aboriginal and Torres Strait Islander and non Aboriginal and Torres Strait Islander male inmates, the most common individual offence was "Break, Enter and Steal" (contained within the property category) 15% Aboriginal and Torres Strait Islander vs 12% non Aboriginal and Torres Strait Islander.
- As reflected in the high concentrations of male Aboriginal and Torres Strait Islander inmates in the assault offence category, the two next highest specific offences for which male Aboriginal and Torres Strait Islander inmates had served time for were "Assault Occasioning Actual Bodily Harm" (11%) and "Assault" (11%). Both of these specific offences contained proportions of Aboriginal and Torres Strait Islander male inmates more than double that for non Aboriginal and Torres Strait Islander male inmates (4%).
- As with the males, both Aboriginal and Torres Strait Islander and non Aboriginal and Torres Strait Islander female inmates had commonly served time for "Break, Enter and Steal" (17% Aboriginal and Torres Strait Islander vs 10% non Aboriginal and Torres Strait Islander).
- The second most common offence for female Aboriginal and Torres Strait Islander inmates was "Steal" (15%) which matched with the non Aboriginal and Torres Strait Islander female proportion (15%).
- Whereas for Aboriginal and Torres Strait Islander females "Assault" was the third most common specific offence (8%), for non Aboriginal and Torres Strait Islander female inmates the next two most common offences were "Supply prohibited drug" (10%) and "Dishonestly obtain benefit by deception" (8%).

Page: 51

Specific Offences ranked in order of most common male Aboriginal and Torres Strait Islander offences

(percent is that for total number of discharges for 1993)

| Offence | | nd Torres Strait ander | | NON Aboriginal and Torres Strait Islander | | |
|---|-----------|---------------------------|-----------|--|--|--|
| · | Males | Females | Males | Females | | |
| Break, Enter & Steal | 106 (15%) | 13 (17%) | 459 (12%) | 26 (10%) | | |
| Assault Occasioning Actual Bodily Harm | 78 (11%) | | 152 (4%) | | | |
| Assault | 75 (11%) | 6 (8%) | 151 (4%) | | | |

| Drive Whilst Disqualified | 23 (3%) | | 174 (5%) | | | |
| Steal | 22 (3%) | 11 (15%) | 158 (4%) | 37 (14%) | | |
| Supply Prohibited Drug | | | | 26 (10%) | | |
| Dishonestly Obtain Benefit by Deception | | | | 21 (8%) | | |

Time Served

Using categories of time served in which the numbers are grouped to give the maximum size per grouping, it can be seen from the table below that Aboriginal and Torres Strait Islander inmates are less likely to have served over two years and are more likely to have served less than one year.

| Time Served | | al and Torres slander | Aboriginal and Torres Strait Islander | | |
|-------------------------|--------|--------------------------|--|------|--|
| | Number | % | Number | % | |
| Less than 3 months | 1119 | 82.9 | 231 | 17.1 | |
| 3 to 6 months | 780 | 80.4 | 190 | 19.6 | |
| 6 to 12 months | 1020 | 83.7 | 198 | 16.3 | |
| 12 months to 2 years | 483 | 86.3 | 77 | 13.8 | |
| Over 2 Years | 632 | 88.5 | 82 | 11.5 | |
| Total | 4034 | 83.8 | 778 | 16.2 | |

- Time served is directly related to the type of offences for which an individual is convicted. As shown previously, Aboriginal and Torres Strait Islander inmates are less likely to have served time for homicide and drug offences which traditionally attract very long sentences. This is reflected in the average times served of 9 months for Aboriginal and Torres Strait Islander inmates and 12 months for non Aboriginal and Torres Strait Islander inmates.
- A large proportion of all inmates had_relatively short periods of time served. In percentage terms, 54% on non Aboriginal and Torres Strait Islander inmates and 62% of Aboriginal and Torres Strait Islander inmates had served 6 months or less in custody at discharge.

Age at start of sentence

Aboriginal and Torres Strait Islander inmates were more likely to be aged under 25 years than non Aboriginal and Torres Strait Islander inmates. The average age for Aboriginal and Torres Strait Islander inmates was 26 years and for non Aboriginal and Torres Strait Islander inmates 30 years.

| Age | Non Aborigin Strait Is | al and Torres slander | Aboriginal and Torres Strait Islander | | |
|-------------|---------------------------|--------------------------|--|-------|--|
| | Number | % | Number - | % | |
| 18-20 | 594 | 14.7 | 195 | 25.1 | |
| 21-24 | 873 | 21.6 | 222 | 28.5 | |
| 25-29 | 886 | 22.0 | 183 | 23.5 | |
| 30-39 | 1158 | 28.7 | 137 | 17.6 | |
| 40 and over | 523 | 13.0 | 41 | 5.3 | |
| Total | 4034 | 100.0 | 778 | 100.0 | |

These age differences are again probably related to the type of offences committed with assault category offences being more typically associated with a younger person.

Security Classification at discharge

- Security classification at discharge is related to time served. For inmates serving up to one year, few would be discharged as a C3 inmate (the lowest security rating available) as they would not have had time to work their way down through the security levels. Also, at that time, few inmates would have been classified as C3 at the beginning of their sentence as can be the case now.
- A C3 security rating has important consequences for the inmate as it is only when the inmate has reached such a security level that they can participate in various pre-release programs like Work Release, Day and Weekend leave.
- Fewer Aboriginal and Torres Strait Islander inmates were discharged as C3 (lowest security rating) than non Aboriginal and Torres Strait Islander inmates.

Classification at Discharge - All inmates

| Security | | al and Torres slander | Aboriginal and Torres Strait Islander | | |
|----------|--------|--------------------------|--|-------|--|
| Rating | Number | % | Number | % | |
| A1 | 5 | 0.1 | 3 | 0.4 | |
| A2 | 46 | 1.1 | 14 | 1.8 | |
| В | 473 | 11.7 | 87 | 11.2 | |
| C1 | 600 | 14.9 | 111 | 14.3 | |
| C2 | 2082 | 51.6 | 470 | 60.4 | |
| C3 | 676 | 16.8 | 61 | 7.8 | |
| E1 | 14 | 0.3 | 8 | 1.0 | |
| E2 | 110 | 2.7 | 21 | 2.7 | |
| Other | 28 | 0.7 | 3 | 0.4 | |
| Total | 4034 | 100.0 | 778 | 100.0 | |

Further analysis showed that this was true even when selecting only those inmates who had served two or more years in custody. For these longer term inmates, only 27% of Aboriginal and Torres Strait Islander inmates were discharged as C3 compared to 44% for non Aboriginal and Torres Strait Islander inmates.

Classification at Discharge - Only Inmates who served 2 years or more

| Security | Non Aborigin Strait Is | al and Torres slander | Aboriginal and Torres Strait Islander | | |
|----------|---------------------------|--------------------------|--|-------|--|
| Rating | Number | % | Number | % | |
| A1 | 2 | 0.3 | . • • أ مَّة • • ب | 1.2 | |

New convictions, 1990-1995

The data set consisted of all inmates starting an episode of imprisonment between 1990 and 1995.

The percentage of Aboriginal and Torres Strait Islander inmates has markedly increased over the last six years for the following four offence categories:

| | 1990 | 1995 |
|------------|------|------|
| Assault | 30% | 35% |
| Robbery | 11% | 16% |
| Driving | 12% | 20% |
| Good Order | 15% | 21% |

NSW Correctional Centre Deaths

Deaths remain a quite exceptional event in NSW Correctional Centres when the large number of sentenced inmates received in any given year is considered - 11,130 in 1995/96

- The total number of deaths in NSW Correctional Centres has remained fairly low and constant for the last four years
- Although NSW often has the highest number of Deaths in Custody, this has more to do with it also having the highest number of inmates in custody. In Death Rate terms (Number of Deaths/Daily Average Number of Inmates X 100) for 1995, NSW ranked third highest in Australia. Data drawn from Deaths in Custody Australia, No 12, 1995, Australian Institute of Criminology, and National Correctional Statistics: Prisons, Issue 3, Australian Bureau of Statistics.

| State | Daily Average June 1995 | Number of Deaths | Death rate |
|--------------------|----------------------------|------------------|------------|
| South Australia | 1392 | 11 | 0.79 |
| Queensland | 2848 | 12 | 0.42 |
| Tasmania | 240 | 1 | 0.42 |
| New South Wales | 6412 | 22 | 0.34 |
| Victoria | 2458 | 6 | 0.24 |
| Western Australia | 2213 | 5 | 0.23 |
| Northern Territory | 473 | . 1 | 0.21 |
| ACT | 103 | - | - |
| Australia | 16059 | 58 | 0.36 |

- The total number of Aboriginal and Torres Strait Islander inmates who have died in NSW Correctional Centres since January, 1980 [the starting date for the Royal Commission into Aboriginal Deaths in Custody] is 30
- Aboriginal and Torres Strait Islander inmate deaths represent 12.5% of all deaths in custody since January, 1980. Aboriginal and Torres Strait Islander inmates comprised 14.4% of the total inmate population as at 6 October, 1996
