# Statistical Report 2007/08

**NSW Department of Corrective Services** 

#### PREFACE

This statistical report is prepared to provide statistical data on long term trends in key performance areas of the NSW Department of Corrective Services. Some of the data presented provides long term trends on performance indicators presented in other reports, in particular the Department of Corrective Services' *Annual Report* and the Productivity Commission's *Report on Government Services*. Due to the need for consistency across diverse correctional jurisdictions nationally, nationally based correctional performance indicators for escapes and deaths are not consistent with the NSW specific indicators presented in this report. Unlike NSW, not all jurisdictions operate external leave programs for full-time custody offenders or a home detention program. By necessity, therefore, nationally based performance indicators for escapes and deaths exclude escapes from external leave programs and deaths of home detainees respectively. As data on escapes and deaths presented in this report are been based on statistical counting rules developed specifically for NSW, they are not comparable to similarly described correctional performance indicators presented in the *Report on Government Services* and in sections of the Department's *Annual Report* (where applicable).

Statistics contained in this publication are collected from various sources within the Department. Prior to 1997/98 offender population statistics were supplied by each correctional centre and collated on a weekly basis. Since that time, these statistics are collated directly from the Department's Offender Integrated Management System (OIMS). Other information on offences, aboriginality, receptions, discharges and offences in custody continues to be collated from OIMS. Serious incidents including escapes and deaths in custody are reported to Corporate Research, Evaluation and Statistics as they occur. Unless otherwise stated, the term "offender" used in this report refers to persons held in custody (including periodic detention) as distinct from persons managed by the Department in the community (i.e. community based offenders).

Some tables showing trends over time have been truncated. Data for preceding years is available from earlier publications of this report.

During 2007/08 the definition of the custody based population was revised. In previous publications the custody based offender population was generally referred to and defined as offenders held in gazetted correctional centres only. In this publication, the custody based offender population is, unless otherwise identified, referred to as the "full-time custody" offender population. The full-time custody population comprises all offenders held in gazetted correctional centres, transitional centres and police/court cell complexes managed by the NSW Department of Corrective Services (DCS). Where applicable, data from previous years has been revised to comply with the revised definition and, where appropriate, tables have been footnoted to indicate specific changes.

#### STATISTICAL REPORT

#### 1. Offender Population

#### Population Characteristics

i opulation c	
Table 1	Offenders under detention (including periodic detention); 24 June, 2007 and 29 June, 20081
Table 2	Daily average offender population at each correctional centre; 2006/07 and 2007/085
Table 3	Legal status of offenders held as at 30th June 2007 by Aboriginality and gender9
Table 4	Most serious offence type for offenders held as at 30 June 2007 by legal status 10
Population T	rends
Table 5	Trends in community supervision and custody as at 30 June; 2000 to 200811
Table 6	Equivalent full-time custody offender daily average NSW; 1973 to 2007/0812
Table 7	Annual trends in the full-time custody offender population; 2000/01 to 2007/08
Table 8	Annual trends in the correctional centre population; 1973 to 2007/0814
Table 9	Number of offenders in custody as at 30th June by Aboriginality; 1992 to 200715
Table 10	Offenders received into custody; 1997/98 to 2007/08
Table 11	Offenders received into NSW correctional centres by legal status; 1982/83
	to 2007/08
Table 12	Offenders discharged from NSW correctional centres after custodial sentence or
	monetary warrant; 1993/94 to 2007/08
Table 13	Trends in the legal status of offenders held as at 30 June; 1990 to 2007
Table 14	Most serious offence type for sentenced offenders held as at 30 June;
	1997 to 2007

#### 2. Escapes

#### Escapes during 2007/08

Table 15	Escapes by security level breached; 2007/08	21
	Number of escapes; 2007/08 - security breached by correctional centre	
	Percentage of escapes; 2007/08 - security level breached by correctional centre	
Table 17		
	of escape	24

#### Trends in Escapes

	Number of escapes by security level/program; 1991/92 to 2007/08 Percentage of escapes by security level/program; 1991/92 to 2007/08	
3. Other Table	S	
Table 19	Offences heard by correctional centre governors; 1999/00 to 2007/08	27
Table 20	Deaths in NSW correctional centres by cause of death and Aboriginality;	
	1987/88 to 2007/08	
Table 21	Recidivism by offenders discharged during 2005/06

#### Table 1: Offenders under detention in each correctional centre (continued)

1. Includes offenders held on remand and those held beyond the expiry of any sentence pending deportation or extradition. Excludes appellants which are included under "Sentenced" offenders.

- 2. Full-time custody excludes periodic detention and comprises offenders held in gazetted correctional centres, transitional centres and police/court cell complexes operated by the Department of Corrective Services. Offenders temporarily absent from a correctional centre are also included. Separate totals for transitional centres and police/court cell complexes are also presented in this table.
- 3. Gazetted correctional centres only (excludes transitional centres, police/court cell complexes and periodic detention centres).
- 4. The last offenders were transferred from John Morony II on 29 September 2007.
- 5. Includes annexe at Prince of Wales Hospital (Secure Unit).
- 6. The first offenders at Wellington Correctional Centre were received on 19 August 2007.
- Transitional centres house offenders temporarily released under s26(2j) of the *Crimes (Administration of Sentences) Act 1999.* Transitional centres are not gazetted as correctional centres and therefore these offenders are not included in the totals for gazetted correctional centres but are included in the totals for full-time custody.
- 8. The Department manages 14 police/court cell complexes throughout NSW which operate on a 24 hour basis. The number of offenders held in these complexes varies widely during the week. Offenders temporarily absent from a correctional centre who were held overnight in a court complex are recorded against the correctional centre from which they are absent rather than against the court complex. Figures include Police custody detainees.
- 9. Other courts are courts that operate during normal court business hours only and therefore do not hold offenders overnight. Offenders shown here are those received and discharged on the same day under the management of Departmental staff. Court cells are not gazetted correctional centres and therefore these offenders are not included in the totals for gazetted correctional centres but are included in the totals for full-time custody.
- 10. Periodic detention is an alternative to full-time imprisonment which requires an offender to be held in custody within a periodic detention centre (PDC) for two days of each week for the duration of the sentence. In Stage II of the PDC program eligible offenders may be authorised to attend a designated work site (which is under the supervision of department staff) where the offender is no longer required to be held overnight at a detention centre.

- 11. The last offenders at Norma Parker PDC were transferred on 24 February 2008. These offenders were transferred to Emu Plains PDC and were received on 2 March 2008. The last offenders at Emu Plains PDC (Weekend) were transferred to Wollongong PDC on 25 May 2008. The last offenders at Emu Plains PDC (Mid-week) were transferred on 1 June 2008.
- 12. Total offenders comprises offenders held in full-time custody and periodic detention centres. This total includes a small number of offenders held in full-time custody for whom a periodic detention order remained active. These offenders have been included in totals for both full-time custody and periodic detention and are therefore counted twice in this total.

#### Table 2: Daily average offender population by centre (continued)

1. Totals may not equal the total of the individual centre averages because some centres were not open for the whole of the year, or because of rounding.

2. Full-time custody total comprises gazetted correctional centres, transitional centres and police/court cell complexes. Excludes periodic detention.

- 3. Gazetted correctional centres only (excludes transitional centres, police/court cell complexes and periodic detention centres).
- 4. These centres for male offenders held a small number of female offenders at some time during 2006/2007 or 2007/2008.
- 5. The first offenders at the Compulsory Drug Treatment Centre were received on 4 September 2006. The daily average for 2006/07 is based on 300 days.
- 6. The first female offenders at Dillwynia (Minimum) were received on 29 September 2006. The daily average for 2006/07 is based on 274 days.
- 7. A small number of female offenders at the June Baker Centre who require protection or segregation are housed in the medium security (male) section of Grafton Correctional Centre. These offenders are, however, included in the totals for the June Baker Unit.
- 8. The last offenders at John Morony II were transferred on 29 September 2007. The daily average for 2007/08 is based on 89 days.
- 9. The last offenders at the Metropolitan Special Programs Centre Additional Support Unit (Minimum) were transferred to the Additional Support Unit (Maximum) on 9 October 2006. The daily average for the Minimum unit for 2006/07 is based on 100 days.
- 10. The last offenders at the Metropolitan Special Programs Centre Area 7 were transferred on 17 August 2006. The daily average for 2006/07 is based on 46 days.
- 11. The first offenders at the Metropolitan Special Programs Centre Other Programs Unit were received on 13 February 2007. The daily average for 2006/07 is based on 138 days.
- 12. The last female offenders at the Mid-North Coast (Minimum) were transferred on 11 April 2007. The daily average for female offenders for 2006/07 is based on 284 days.
- 13. Silverwater Women's Correctional Centre was re-gazetted on 19 January 2007 (previously gazetted as Mulawa Correctional Centre).
- 14. The first offenders at Wellington Correctional Centre were received on 19 August 2007. The daily average for 2007/08 is based on 317 days.
- 15. The Women's Programs and Remand Centre operated on the site of John Morony II between 1 May 2008 and 27 May 2008. The daily average for 2007/08 is based on 27 days.
- 16. Transitional centres house offenders temporarily released under s26(2j) of the *Crimes (Administration of Sentences) Act 1999.* These centres are not gazetted correctional centres and have not been included in the totals relating to correctional centres but are included in the totals for full-time custody.
- 17. The Department manages 14 police/court cell complexes throughout NSW which operate on a 24 hour basis. The number of offenders held in these complexes varies widely during the week. Offenders temporarily absent from a correctional centre who were held overnight in a police/court complex are recorded against the correctional centre from which they are absent rather than against the police/court complex. Figures include Police custody detainees. These centres are not gazetted correctional centres and are not included in the totals relating to correctional centres but are included in the totals for full-time custody.

- 18. Other courts are courts that operate during normal court business hours only and therefore do not hold offenders overnight. Offenders shown here are those received and discharged on the same day under the management of Departmental staff. Other court cells are not gazetted correctional centres and are not included in the totals relating to correctional centres but are included in the totals for full-time custody.
- 19. Averages for Periodic Detention Centres (PDCs) are based on the number of offenders with live orders for the weeks each centre was opened. All PDCs were closed for Easter in 2007 and 2008. Unless otherwise indicated, the daily average for 2006/07 is based on 50 weeks and 51 weeks for 2007/08. Totals may not equal the sum of individual centres due to rounding.
- 20. The first offenders at Emu Plains PDC were transferred (from Norma Parker PDC) on 2 March 2008. The last offenders were transferred from Emu Plains PDC (to Wollongong PDC) on 8 June 2008. The daily average for 2007/08 is based on 17weeks.
- 21. The last offenders at Norma Parker PDC were transferred (to Emu Plains PDC) on 24 February 2008. The daily average for 2007/08 is based on 34 weeks.
- 22. Female offenders from Emu Plains PDC were transferred to the female unit of Wollongong PDC on 15 June 2008. Prior to that transfer, the average female offender population at Wollongong PDC was approximately 8 offenders. Following the transfer of female offenders from Emu Plains the daily average female offender population at Wollongong increased to approximately 40 offenders. The daily average female offender population for entire 2007/08 period was 10 offenders.

# Table 3: Legal status of full-time custody offenders <sup>1</sup> held as at 30th June 2007 by Aboriginality and gender

Source: NSW Inmate Census 2007 (NSW Department of Corrective Services: Statistical Publication No. 31).

- 1. Comprises offenders held in gazetted correctional centres, transitional centres, police/court cells and periodic detention centres. Definition has been revised from previous years and totals are not directly comparable with previous publications.
- 2. Aboriginality as self reported on reception into custody.
- 3. Comprises remand/trials, convicted offenders awaiting sentence and police custody detainees held in the custody of the NSW Department of Corrective Services.
- 4. Civil offenders are offenders held in custody under sentence for an offence other than a criminal offence.

#### Table 4: Most serious offence type for offenders <sup>1</sup> held as at 30 June 2007 by legal status

Source: NSW Inmate Census 2007 (NSW Department of Corrective Services: Statistical Publication No. 31).

- 1. Comprises offenders held in gazetted correctional centres, transitional centres, police/court cell complexes and periodic detention centres. This definition has been revised from previous years and totals are not directly comparable with previous publications.
- The system used for the classification of most serious offence has changed. Prior to this report the most serious offence was classified according to the NSW Classification of Offences and of Care and Protection Orders for Child (2nd revision). In this report the most serious offences is classified using the 1997 edition of the Australian Standard Offence Classification (ASOC) developed by the Australian Bureau of Statistics (see ABS Catalogue no. 1234.0 - 1997).
- 3. Unless otherwise stated, the most serious offence is classified as the offence with greatest aggregate sentence and ignores offences for which conviction or sentencing are not finalised. Where two or more offences classified to different ASOC groups have sentences of equal length, the offence with the lowest NSW offence code is determine to be the most serious offence.
- 4. Unconvicted offenders comprises those held on remand/trial, convicted awaiting sentence, deportees, those awaiting extradition or police custody detainees managed by DCS. For unconvicted offenders the most serious offence is classified as the offence with the lowest NSW offence code.

#### Table 5: Trends in community supervision and custody as at end June; 2000 to 2008

 Comprises offenders held in full-time custody (including transitional centres and Police/court cell complexes) on the last Sunday of the financial year together with offenders on periodic detention during the preceding week. Since 2002, figures for court complexes include police custody detainees and fresh custody persons received and discharged on the same day.

2. Community supervision includes offenders with orders in suspense, where supervision has temporarily been suspended. Supervision may be temporarily suspended for a number of reason, including where breach action has been taken pending advice from a court, execution of a warrant, temporary absence with permission or interstate supervision (probation orders).

- 3. The *Home Detention Act 1996* came into effect on 21 February 1997, establishing a Home Detention Order as an alternative means of serving sentences of full time imprisonment of up to 18 months.
- 4. Community service orders (CSO) include offenders on community work orders and orders that include both community work and attendance programs.
- 5. The Community Service Order (Fine Default) program commenced 1/1/1988 and was discontinued in 1998. The *Fines Act 1996* was introduced in January 1998. The community service order is the latter part of the overall fine default enforcement process and until the latter part of 2003 only a small number of offenders had progressed to a community service order.
- 6. Probation orders include bonds, CSO (attendance program only), bail supervision, drug court and suspended sentence orders.
- 7. Some offenders are subject to orders in more than one category (e.g., CSO plus probation), hence the number of orders supervised is always greater than the number of people supervised. For example, although the table indicates a total of 21,013 offenders with home detention, CSO, fine default, parole and probation orders on 30 June 2000, there were actually 18,491 offenders being supervised.
- 8. Total represents the sum of "Custody" and "Sub-total community supervision" offenders.

Table 6: Equivalent full-time custody offender daily average; 1973 to 2007/08

1. The equivalent full-time average for periodic detention centres is calculated as 2/7ths of the actual average as offenders are in custody only 2 days per week.

 Transitional Centres are not gazetted as correctional centres and house female offenders on temporary leave under s26(2j) of the *Crimes (Administration of Sentences) Act 1999*. The first transitional centre offenders were received on 22 September 1996.

3. The Department of Corrective Services has managed offenders in 24 hour police/court cell complexes since 1992. Collection of accurate data on the daily average population of offenders held overnight in these complexes commenced in July 2001.

4. Other courts are places of detention managed by the Department of Corrective Services which operate during court hours only. These offenders are received and discharged on the same day and are not held in custody at these centres overnight. Collection of accurate data on the daily average number of offenders held in these centres commenced in July 2001.

5. The total equivalent full-time daily average is the average number of offenders managed on a daily basis throughout the year.

6. For the calendar year ending 31 December 1973.

Table 8: Annual trends in the correctional centre<sup>1</sup> population; 1973 to 2007/08

1. Excludes periodic detention centres, transitional centres and police/court cell complexes.

2. Figures prior to 2002/03 are based on the NSW adult population as at 30 June only. Figures for 2002/03 onwards have been revised and are based on NSW adult population estimates extrapolated from the Steering Committee for the Review of Government Service Provision publication *Report on Government Services*.

3. Prior to 2001/02 highest and lowest daily totals were based on Sundays only. Since 2001/02 highest and lowest totals are calculated based on each day of the year.

4. For calendar year ending 31 December 1973.

## Table 9: Number of offenders in NSW custody as at 30th June by Aboriginality; 1992 to 2007

Source: NSW Inmate Census, NSW Department of Corrective Services.

1. Includes transitional centres and police/court cell complexes. Revised from previous years publications.

2. Aboriginality as self reported at reception into custody. Offenders whose Aboriginality was recorded as "Unknown" in the Census are reported as non-Aboriginal/TSI. The method for determining Aboriginality changed in 2003. Previously, the Aboriginality status current at the time of the Census was recorded. Under new counting rules, an offender is recorded as being Aboriginal or Torres Strait Islander where any current or past record reported the offender as being Aboriginal or Torres Strait Islander.

3. Totals based on revised definition of full-time custody and are not directly comparable with figures presented in previous years publications.

Table 10: Offenders received into custody; 1997/98 to 2007/08

1. The Department of Corrective Services assumed responsibility for police/court escort functions from the NSW Police Service in 1991 and the management of a small number of 24 hour police/court cell complexes in 1992. The *Correctional Centres Amendment Act 1998* (which commenced in July 1998) enable correctional officers to manage offenders in 24 hour police/court cell complexes. Since that time the number of 24 hour police/court cell complexes managed by the Department increased and the Department currently manages fourteen (14) 24 hour police/court cell complexes across NSW. Many of the offenders received into 24 police/court cells are Police custody ("Form 7" of the *Bail Regulation 1999*) detainees who are persons in police custody (police-bail refused) who are managed by the NSW Department of Corrective Services. Many of these "Form 7" detainees are discharged from custody following their court appearance and those remanded into custody are usually transferred to a correctional centre. The figures shown here include only those offenders who were received and subsequently discharged from a 24 police/court cell complex without ever having been transferred into a correctional centre during that episode of imprisonment.

2. Offenders received into correctional centres includes offenders initially received into a police/court cell complexes who were subsequently transferred to a correctional centre.

Table 11: Offenders received<sup>1</sup> into NSW correctional centres by legal status; 1982/83 to 2007/08

Prior to March 1989 reception data was based on information supplied by correctional centres. Since that time data has been
retrieved from the departmental offender record system. The method of retrieving reception data from the record system was
revised in 1995/96, 1997/98 and 2001/02. Statistics for 1989/90 to 1992/93 were obtained from the Offender Record System
(ORS) by the 1995/96 revised method. Statistics for 1993/94 to 1996/97 were obtained from the Offender Management
System (OMS) using the 1997/98 method. Statistics for 1997/98 onward were obtained using the third-revised method
and differ from those previously published.

2. Includes unsentenced receptions who subsequently received a sentence to be served by way of full-time imprisonment.

- 3. There was a moratorium on the execution of Fine Default warrants at the end of 1987 and legislative amendments introduced in January 1988 which reduced the number of fine defaulters received into custody. There were further moratoriums on the execution of Fine Default warrants in NSW between 31 March and 30 June 1994 and 1 October and 31 December 1997. A new fine enforcement system was introduced in January 1998 under the *Fines Act 1996*. Since October 1997 only Federal, ACT and interstate fine defaulters have been received into NSW correctional centres.
- 4. Includes 35 fine defaulters received at Port Macquarie Court Cells during 1996/97, 8 during 1997/98 and 1 during 1998/99.
- 5. Includes 20 fine defaulters received into Periodic Detention Centres during 1994/95, 33 during 1995/96 and 16 during 1996/97.
- 6. The total number of receptions is a unique count of reception episodes and is not equal to the sum of unsentenced and sentenced receptions. An unsentenced offenders who subsequently received a sentence of full-time imprisonment during the same imprisonment episode in the same financial year is counted once under unsentenced, once under sentenced and once in the total.

1. Includes offenders discharged from transitional centres but excludes offenders discharged from police/court cell complexes.

2. Does not include offenders who died in custody or were deported or extradited on completion of sentence.

3. There were moratoriums on the execution of Fine Default warrants in NSW between 31 March and 30 June 1994 and between 1 October 1997 and 31 December 1997. A new fine enforcement system was introduced on 27 January 1998 under the Fines Act 1996. This system is based on a hierarchy of civil and non-custodial sanctions. All fine defaulters received after introduction of this Act were for interstate or Federal fines.

Table 13: Trends in the legal status of offenders<sup>1</sup> held as at 30 June; 1990 to 2007

1. Comprises offenders held in full-time custody (correctional centres, transitional centres and police/cell complexes) and periodic detainees. Definition revised from previous years and not comparable with previous publications.

2. Includes fine default.

3. Includes convicted offenders awaiting sentence and police custody detainees managed by DCS.

4. Civil offenders are offenders held in custody under sentence for an offence other than a criminal offence.

held as at 30 June; 1997 to 2007

includes forensic patients and civil offenders. 2. Most serious offence is classified as the offence with the greatest aggregate sentence ignoring unfinalised charges. 3. Prior to 1998 "Breach of Parole" was only counted as the most serious offence where there were no other current convictions. Since 1998 "Breach of Parole" has treated like any other offence in the calculation of the most serious offence. Classification of offences is based on the ABS Australian Standard Offence Classification (ASOC) 1997 and categories are not comparable with previous publications.

1. Includes 3 escapes from Bolwara House Transitional Centre (1 in 2003/04 and 2 in 2005/06).

2. The first full-time offenders at the Malabar Fines Unit were received on the 16 August, 1996. The last offenders were transferred on 18 November 1997.

3. Includes 2/7ths of the number in Periodic Detention as detainees are in custody two days per week. Since 1996/97 the equivalent full-time custody daily average includes offenders held in transitional centres and police/court cell complexes managed by the Department of Corrective Services.

\* Malabar Fines Centre did not operate during these years (see explanatory note 2).

NB: The count of escapes is based on NSW specific counting rules which are not aligned with those adopted for the Productivity Commission's Report on Government Services.

Includes 3 escapes from Bolwara House Transitional Centre (1 in 2003/04 and 2 in 2005/06).
 The first full-time offenders at the Malabar Fines Unit were received on the 16 August, 1996. The last offenders were transferred on 18 November 1997.

\* Malabar Fines Centre did not operate during these years (see explanatory note 2).

1. Categories of offence are explained in the following notes.

2. Number = number of charges.

3. Rate per 100 offenders held calculated as: Number of charges x 100 Daily average correctional centre population

4. Regulations allowing condoms to be made available to offenders were introduced in March 1996.

5. Specific regulations relating to possession of cameras, audio/video recorder and mobile phones where introduced into the *Crimes (Administration of Sentences) (Correctional Centre Routine) Regulation 2001* in February 2004.

na - not applicable

#### NOTES ON OFFENCE CATEGORIES

#### Regulations cited below are as stated in the Crimes (Administration of Sentences) (Correctional Centre Routine) Regulation 2001 under the Crimes (Administration of Sentences) Act 1999.

#### Abusive Behaviour

This category includes breaches of the following regulations: intimidation, Clause 127 and indecency, Clause 128.

Whether behaviour is considered abusive or threatening may depend on the circumstances. Thus a correctional centre where a high level of abuse was tolerated might have few inmates charged, although abusive behaviour was common, and vice versa.

#### **Fighting or Assault**

This category includes breaches of the following regulations: assaults, Clause 130(1) and fighting or engage in physical combat, Clause 130(2).

It should be noted that the more serious cases of assault may be dealt with directly by police and hence not appear as misconduct charges. Also, charges cannot be made if an alleged assailant is not known. Thus these figures in no way indicate the number of assaults that have taken place. A count of assaults and fights in correctional centres is separately maintained by the Corporate Research, Evaluation and Statistics Unit.

#### Charges Against Good Order

This category includes breaches of the following regulations: supply false or misleading particulars, Clause 5; fail to surrender property on reception, Clause 8; fail to clean yards, Clause 38; fail to comply with correctional centre routine, Clause 39; enter other cell, Clause 40; operate bell, hooter, siren of whistle, Clause 42; avoid correctional centre routine, Clause 43; unlawfully deliver or receive article to or from inmate, Clause 44; resist or impede search, Clause 46; fail to keep property in a tidy and orderly manner, Clause 47; unlawfully purchase food, Clause 52(2); possess unauthorised food, Clause 52(3); unlawfully trade in food, Clause 52(4); fail to maintain personal cleanliness, Clause 56; wear improper clothing Clause 57; fail to keep clean cells and issues articles, Clause 58(1); fail to look after clothing, bedding and other issues articles, Clause 58(3); misbehave while attending services and programs, Clause 61; convey or deliver to, or receive from, visitors unauthorised articles, Clause 108; unlawfully use telephone or facsimile, Clause 112; disobey direction, Clause 120; contravene condition of local or interstate leave permit, Clause 124; conceal for purpose of escape; Clause 125; conceal article for use in escape or other offence, Clause 126; participate, or incite other inmates to participate in, riot, Clause 129; tamper with food or drink, Clause 131(3); hinder or obstruct dog, Clause 132; cause harm to animal, bird or reptile, Clause 133; tattoo, Clause 135; gamble, Clause 136; smoke in non-smoking area, Clause 143(a); bribery, Clause 144; obstruct correctional officer, Clause 145; make mischievous complaint, Clause 160; give false or misleading information, Clause 172.

#### Stealing/possess prohibited goods

This category includes breaches of the following regulations: possession or create prohibited goods, Clause 45 and steal, Clause 131(1).

The number of charges for stealing or possession of contraband at a correctional centre may depend on the availability of articles to steal or the opportunity to acquire illegal property.

#### **Property Damage**

This category includes breaches of the following regulations: damage, destroy or deface cell, Clause 58(2); desecrate or abuse spiritual items, Clause 68; throw article, Clause 130(3); damage or destroy property, Clause 131; interfere with correctional centre property, Clause 134 and alter, damage or remove non-smoking or smoking sign, Clause 143(b).

In a correctional centre environment, especially with shared cells, it may be difficult to prove who was responsible for property damage. Thus although property damage may have occurred, charges may not be laid or may be dismissed.

#### Failure to Attend Muster

This category consists of breaches of Clause 41 failure to attend muster. The number of charges for failure to attend to muster is likely to be influenced by the routine of the correctional centre.

#### Refuse to Provide Urine Sample

This category comprises breaches of the following regulations: refuse or fail to provide urine sample where drug use is suspected, Clauses 148 and refusal or fail to supply a urine sample whether or not drug use is suspected, Clause 149. For this offence the number of charges at a correctional centre is likely to depend more on the number of samples requested and the conditions under which they are taken than on the percentage of refusals.

#### **Alcohol Charges**

This category includes breaches of the following regulations: possess/consume alcohol, Clause 137(1); prepare or manufacture alcohol, Clause 137(2) and refuse breath testing, Clause 146.

#### **Other Drug Charges**

This category includes breaches of the following regulations: possess drug, Clause 138; administer drug, Clause 139; possess drug implement, Clause 140; self-intoxication, Clause 141 and fail prescribed urine test, Clause 142.

Many of the charges in this offence type were on the results of a urine test so that the number of charges depends partly on the number of tests made. In addition, some inmates with a positive urine test were not charged, for example, because they had been discharged by the time the results arrived or because they had not been in custody long enough for it to be certain that the drug was used during imprisonment. Thus the change in the number of drug charges does not necessarily reflect a change in drug use in correctional centres.

#### Unauthorised possession/misuse of condom

Regulations allowing condoms to be made available to inmates were introduced on 22nd March, 1996. Under the current Regulation an inmate may be charged with unlawfully possess condom, Clause 59(3); unlawfully use condom, Clause 59(4) and unlawfully dispose of condom, Clause 59(5).

#### Possess camera/audio equipment or mobile phone

Regulations relating to possession of cameras, video or audio recorders, Clause 113A and possession of a mobile phone, Clause 113B were introduced on 6 February, 2004. Prior to the introduction of this specific offences, charges of this nature were recorded under possession or create prohibited goods, Clause 45.

Miscellaneous offences	21%	129	47%	150	35%	279
TOTAL	24%	2377	53%	4397	43%	6774

NB. The total "Total inmates" recidivism statistic presented here is comparable to the "Prisoners returning to prison" indicator as reported in the Productivity Commission's Report on Government Services.

- 1. The data refers to offenders discharged from full-time custody between 1 July 2005 and 30 June 2006 after serving a full-time custodial sentence in a NSW correctional centre or transitional centre. Excludes offenders discharged on completion of a sentence where DCS held information indicating further outstanding charges against the offender (e.g. offenders discharged where the reason was recorded as "sentenced expired and bail").
- The focal episode is the episode of full-time custody to which the discharge between 1 July 2005 and 30 June 2006 refers. The category of most serious offence is now based on the Australian Standard Offence Classification (ASOC) 1997 and are not directly comparable to categories reported in previous year publications.
- 3. No imprisonment under sentence in a correctional centre managed by NSW DCS prior to the focal episode.
- 4. Imprisonment under sentence in a correctional centre managed by NSW DCS prior to the focal episode.
