#### EXPLANATORY NOTES

#### (a) General information

The New South Wales Inmate Census was conducted as part of the National Australian Prison Census for 30 June 2020. The first Australian National Prison Census was conducted on 30 June 1982 and both the NSW and National inmate censuses have been conducted annually since that time. Previous publications of the NSW Inmate Census can be obtained from the Corrective Services NSW website (http://www.correctiveservices.justice.nsw.gov.au). National prison census publications are published by the Australian Bureau of Statistics (ABS) (see Prisoners in Australia ABS Catalogue 4517.0).

In previous years Section 1 of this report incorporated statistics on all inmates including periodic detainees and Section 3 provided a detailed profile of the periodic detainee population. Following abolition of periodic detention as a sentencing option in 2010 the periodic detention population has declined significantly. Reforms enabling the re-sentencing of offenders subject to a periodic detention order came into force in September 2018. Following these changes, all periodic detention orders have ceased to apply from this date. The scope of this report ceases to incorporate periodic detainees and the section describing the characteristics of these offenders has been removed.

#### (b) Scope of data collection

This publication contains summary statistics of inmates managed by Corrective Services NSW (CSNSW) who were held in full-time custody in New South Wales at midnight on 30 June 2020. Inmates temporarily absent from a correctional centre (as at midnight on Census night) under s26 of the *Crimes* (Administration of Sentences) Act, 1999 have been excluded with the exception of those inmates housed at Parramatta Transitional Centre and Bolwara House Transitional Centre (Emu Plains). Police custody 'police-bail refused' detainees held in police/court complexes as at midnight on Census night under the management of CSNSW (as provided under Part 13 of the *Crimes* (Administration of Sentences) Act 1999) are also included.

Prior to 2007, the scope of the NSW Inmate Census was strictly based on inmates held in gazetted correctional centres and periodic detention centres as at midnight on 30 June each year. Despite the fact that CSNSW had managed inmates in police/court complexes since 1992 and transitional centres since 1996, these inmates were not considered for inclusion in the scope of the Census data collection because they were not held in gazetted correctional centres. Between 1997 and 2006, this publication series included these statistics as separate totals for inmates held in police/court complexes and transitional centres. Since 2006 these inmates have been incorporated into the section detailing full-time custody inmates.

Offenders residing in non-custodial facilities managed by CSNSW such as Community Offender Support Program Centres (COSP Centres) and community residential facilities (such as the Balund-a facility at Tabulam) are excluded from the scope of the inmate Census as these offenders are not held in custody. These offenders are incorporated within the scope of the NSW Community Offender Census (available at http://www.correctiveservices.justice.nsw.gov.au). Persons held at the NSW Department of Health's Forensic Hospital (adjacent to Long Bay Correctional Complex) are also excluded as this facility is not a gazetted correctional centre nor is it managed by CSNSW.

In previous years the scope for this publication and the ABS's National Australian Prison Census were misaligned. As a census of adult prisoners, the National Australian Prison Census excluded all inmates (regardless of their age) who were held at Kariong Juvenile Correctional Centre. CSNSW managed the Kariong Juvenile Correctional Centre between December 2004 and May 2015. Since CSNSW ceased managing Kariong Juvenile Correctional Centre this discrepancy between scope of the ABS and this publication has been removed.

Reforms for the re-sentencing of offenders who were subject to a periodic detention order came into effect on 24 September 2018 under the Crimes (Sentencing Procedure) Amendment (Sentencing Options) Act 2017 No 53. From that date all periodic detention orders ceased to apply and as such periodic detention is no longer a component of the scope of this publication.

#### (c) Concept of an episode of imprisonment

Statistical information describing legal status, type of sentence, court type, sentence terms, most serious offence etc all relate to the episode of imprisonment current at the time of the Census. For the purposes of this publication, an episode of imprisonment is taken as a continuous period of imprisonment under the management of CSNSW.

In distinguishing between the current and any previous episode of imprisonment the following rules were applied:

- i. for inmates held in custody for breach of a parole or licence order relating to a previous period(s) of imprisonment, the previous period(s) of imprisonment is/are excluded from the current episode;
- ii. any period of imprisonment prior to a release from a court where the inmate was subsequently freed without having been returned to full-time custody within 1 day, was excluded from the current episode;

- iii. any period of imprisonment prior to a transfer into police custody where the inmate was subsequently freed without having been returned to fulltime custody within 5 days, was excluded from the current episode;
- iv. any period of imprisonment prior to release on bail, on a bond or to immigration authorities was excluded from the current episode;
- v. any period of imprisonment prior to transfer to an institution other than a NSW correctional centre (including Kariong Juvenile Correctional Centre), a transitional centre or police/court complex operated by CSNSW was excluded from the current episode. For example, this excludes detention in a psychiatric hospital, juvenile or interstate correctional institution;
- vi. for inmates who had escaped from CSNSW custody and had been subsequently returned to custody, the episode of imprisonment current at the time of the escape was included in the current episode;
- vii. for inmates who have had their periodic detention order cancelled and were now serving the sentence by way of full-time imprisonment, or have been placed into full-time custody in relation to other offences, the period of periodic detention imprisonment was excluded from the current episode.

#### (d) Aboriginality

An inmate is recorded as an Aboriginal or Torres Strait Islander (TSI) where they have identified as such (by self report) in any current or previous episode of imprisonment. Prior to 2002 the Aboriginal/TSI status of the inmate current at the time of the Census was recorded.

#### (e) Known prior imprisonment as an adult

For the purposes of this publication known prior imprisonment includes any episode of imprisonment within periodic detention or full-time custody in NSW. Prior imprisonment includes imprisonment under a court issued order within a police/court cell complexes managed by the CSNSW but excludes any period of detention managed by CSNSW as a police-bail refused detainee.

Prior to 1999, prior adult imprisonment was based simply on whether an inmate had any known episode of prior imprisonment as an adult in a gazetted correctional centre in NSW. A hierarchy of sub-categories of known prior imprisonment based on custodial program and legal status was introduced in 1999. In 2009 the hierarchy was revised to identify inmates having prior community based order(s) under CSNSW supervision within the population of inmates with no prior custodial imprisonment. Where there is

more than one period of prior imprisonment of a particular sub-category, the highest sub-category is used. The sub-categories, from lowest to highest, are:

- i. no prior imprisonment or community-based order;
- ii. prior community based order but no prior imprisonment;
- iii. an episode of periodic detention;
- iv. an episode on remand in full-time custody;
- v. an episode in full-time custody for fine default;
- vi. an episode in full-time custody under sentence.

#### (f) English speaking status of country of birth

Country of birth classification is based on the Standard Australian Classification of Countries (SACC) Second Edition (Australian Bureau of Statistics Catalogue No: 1269.0, ABS 2008). English speaking status of the country of birth is based on the 'Main English speaking countries' as identified in ABS publication Australian Standard Classification of Countries for Social Statistics (ASCCSS) (ABS Catalogue No. 1269.0). The main English speaking countries comprise: Australia, Canada, New Zealand, Republic of Ireland, South Africa, United Kingdom (Channel Islands, England, Scotland, Wales and Northern Ireland) and the United States of America.

#### (g) Legal status

For the purpose of this publication, inmates have been classified to one of the following seven legal status categories:

- i. under sentence no appeal;
- ii. awaiting result of appeal against conviction or sentence;
- iii. detained as a forensic/correctional patient;
- iv. unconvicted (awaiting court hearing/trial);
- v. awaiting deportation;
- vi. awaiting extradition to another jurisdiction; or
- vii. civil inmate (held in custody for an offence other than a criminal offence).

The previously reported category 'convicted but awaiting sentence' was removed from this publication in 2007 as this legal status is not able to be determined from available electronic records. Inmates with this status are now included as 'unconvicted' inmates. Inmates held as Police custody 'police-bail refused' detainees are recorded as 'unconvicted' inmates.

#### (h) Type of sentence

This item relates to the aggregate sentence imposed (see explanatory note (m)).

The category 'Life sentence' is comprised of (a) persons sentenced to an 'existing life sentence' (as defined in Schedule 1 of the *Crimes (Sentencing Procedure) Act 1999*) who have either yet to have that sentence redetermined by the Supreme Court or have been prohibited from making further application; (b) persons sentenced to an 'existing life sentence' who have had that sentence redetermined by the Supreme Court and the court has declined to set a specific term for the sentence but has set a non-parole period of a term of years; (c) persons sentenced to 'natural life' following proclamation of the *Life Sentences Amendment Act, 1989* and (d) persons sentenced to 'Life' with/without a non-parole period under federal/interstate legislation.

The category 'Forensic patient' is comprised of persons identified as 'forensic patients' as defined under Section 42 of the Mental Health (Forensic Provisions) Act 1990 which includes persons found not guilty by reason of mental illness and persons found unfit to be tried. The category also includes persons convicted or held on remand for a criminal offence who are transferred from a correctional centre to a mental health facility managed by CSNSW as a 'correctional patient' under Section 55 of the Act. Prior to 2011 these persons were reported in Tables 1.3 and 2.3 as 'forensic patients – Type B'.

For other sentence types detailed in this publication sentences are described as either 'Sentence/Non-Parole' where a court imposed a non-parole period (i.e that component of the sentence that must be served in custody) or as 'Sentence/Parole period declined' where the court did not impose a nonparole period.

A new fine enforcement system for NSW was introduced from 27 January 1998 under the Fines Act 1996 and is based on a hierarchy of civil and noncustodial sanctions with imprisonment as a sanction of last resort. Since that time inmates whose sentence type is recorded as 'Fine default' were held only for reason of default on a commonwealth or interstate fine (i.e. there are no outstanding charges or current sentences). The last fine defaulter was received into CSNSW custody in August 2004.

#### (i) Level and State of court

This item represents the level and state of court at which (for sentenced inmates) the current sentence for the most serious offence was imposed. For unsentenced inmates, the court at which the order for detention for the most serious offence (see explanatory note (k) below) current at the time of the Census is used. Appeal courts were recorded only where such courts have altered the sentence term imposed for the most serious offence. Where the most serious offence was breach of parole, the court of conviction is shown as State Parole Authority (formerly the NSW Parole Board). Inmates only detained awaiting deportation are shown under 'Immigration Authority'.

The NSW Drug Court program commenced on 8 February 1999 as a noncustodial program for illicit drug dependent offenders charged with nonviolent offences. Inmates shown with a court of 'Drug Court' are convicted offenders either (a) held in custody as unsentenced inmates by the Drug Court pending determination of or placement on their program, (b) in custody serving a 'sanction' for a breach of the Drug Court order or (c) had their program terminated and were subsequently ordered by the Drug Court to serve the original suspended sentence by imprisonment in full-time custody.

#### (j) Classification of offences

In this publication the classification of offences has been based on the Australian and New Zealand Standard Offence Classification (ANZSOC), 2011(ABS Catalogue No. 1234.0). A summary of the classification is given in Appendix 1.

The ASOC 2011 classification was introduced into this publication for the first time in 2019. Between 2009 and 2018 the classification of offences was based on ASOC 2008. In 2007 and 2008 the classification of offences was based on ASOC 1997 (1<sup>st</sup> edition). Prior to 2007, offences were classified according to the Second Revision of the New South Wales Classification of Offences and of Care and Protection Orders for Children (ANCO). An ASOC to ANCO concordance is provided as part of the ABS publication.

Under ANZSOC 2011 offences involving attempts, threats, intentions, and conspiracies are generally classified in the same subdivision as the actual offence, whereas under ASOC 1997, conspiracy offences (with the exception of conspiracy to murder) were classified to 'Division 13 - Public Order Offences'. In this publication both the ASOC division and subdivisions to which the most serious offence was classified have been reported.

Trends series (Section 4) have also been revised to concord with ANZSOC 2011. ASOC 1997 data for years 1989 to 2009 have been revised using the ANZSOC to ANCO concordance. Prior to 1989 offence data was not recorded at a level of detail which enabled a re-mapping to ANZSOC 2011. This data remains mapped to ASOC 1997, however, at the division level, differences between ANZSOC editions for these time periods are not expected to be significant.

Improved coding procedures for sentenced and unsentenced inmates whose most serious offence/charge fell within ANZSOC/ASOC Division 16 -Miscellaneous Offences were introduced in 2012. Specifically these related to import / export regulations. Where possible, previous years' results presented in trend series have been revised, however, caution should be exercised when comparing 2012 and later miscellaneous offence data with previous years.

#### (k) Most serious offence

Although an inmate may be held by CSNSW for a number of different offences, only the characteristics of the most serious of all offences in the current imprisonment episode is used in this publication. Generally, the most serious offence is selected as the offence for which the longest sentence was imposed for a single count, regardless of the possible result of any appeals. For the purpose of this calculation, offences where no sentence had been imposed at the time of the sentence (i.e. remand orders) are treated as having a sentence length of zero.

Where the longest sentence was imposed on more than one offence, the most serious offence was identified using the National Offence Index (NOI) associated with each ANZSOC (2011) group. In 2008, following the adoption of ASOC (1997), the same methodology was used but was based on the NOI (1997). Prior to 2008 the offence with the lowest NSW ANCO code was selected as the most serious offence where the longest sentence was imposed on more than one offence. A table detailing historical trends in most serious offence based on ANZSOC division is provided in Section 4 (see Table 4.8).

#### (I) Federal offences

The identification of inmates with federal offence(s) is based on the federal status of all offences relating to the current imprisonment episode regardless of whether, at the time of the Census, a sentence had been imposed or had expired for that offence. Federal offences are identified by CSNSW staff using information recorded on court documents provided to the agency.

#### (m) Aggregate sentence

This item represents the longest period that a person may be detained under sentence in the current episode and includes any 'balance of sentence' terms. Pending charges that are likely to extend the aggregate sentence are ignored. In the case of an inmate serving the balance of a sentence after revocation of parole or licence, only the balance of the sentence is included, as distinct from publications previous to 1998 where the whole of the original sentence was included.

For the purpose of this publication, the aggregate sentence category 'Forensic patient' includes all persons with a legal status or sentence type of 'Forensic patient' regardless of any other sentence imposed during the current episode. The aggregate sentence length for 'Life' and certain 'Forensic patient' sentence types is indeterminate as the sentencing authority does not impose a sentence expiry date for these sentences (refer to explanatory note (h) above).

#### (n) Inmate security classification

Inmates in correctional centres are classified in accordance with the Crimes (Administration of Sentences) Regulation 2014 (Clauses 12, 13, 14 and 14A). Inmates held at the Compulsory Drug Treatment Centre are not classified according to the regulations and are shown separately. Security classification sub-categories for unsentenced inmates were introduced into this publication in 1999. In this publication the security classification current at the time of the Census is shown. It should be noted that some convicted inmates may have an 'unconvicted' inmate security classification if they were facing further and more serious charges or they had not been re-classified at the time of the Census.

A new security classification category of "Life" was created under Clause 14A of the Crimes (Administration of Sentences) Amendment (Classification of Inmates) Regulation 2018. This legislation came into force from 6 April 2018.

On summary sheets, Maximum security includes both convicted and unconvicted inmates classified as Life, AA, A1, A2, E1 and Category 5 (females). Medium security includes both convicted and unconvicted inmates classified as B, E2 and Category 4 (Females). Minimum security includes both convicted and unconvicted inmates classified as C1, C2, C3, Category 1, 2 and 3 (females) and inmates held at the Compulsory Drug Treatment Centre.

#### (o) Statistical area of last known address

The statistical area of last known address reported in this publication is based on the self reported postcode of last known address at the time of the Census. Postcodes were mapped to the statistical areas within the Australian Statistical Geographical Standard (ASGS) (Australian Bureau of Statistics Catalogue No: 1270.0, ABS 2011). Publications prior to 2011 were mapped (as Statistical Sub-divisions) to the Australian Standard Geographical Classification (ASGC) (Catalogue No: 1216.0, ABS 2009).

#### (p) Significant events

Reforms for the re-sentencing of offenders who were subject to a periodic detention order came into effect on 24 September 2018 under the Crimes (Sentencing Procedure) Amendment (Sentencing Options) Act 2017 No 53. From that date all periodic detention orders ceased to apply and a process of re-sentencing those offenders was introduced. The section of this report detailing periodic detainees has been removed.

The following is a summary of legislative and operational changes enacted between 30 June 2019 and 30 June 2020 which may have had a significant impact on the size and characteristics of the NSW inmate population:

- Illawarra Reintegration Centre closed in March 2020.
- Ivanhoe (Warakirri) Centre closed in March 2020.
- Outer Metropolitan Multi-Purpose Correctional Centre renamed to Geoffrey Pearce Correctional Centre in April 2020.
- Berrima Correctional Centre closed in May 2020.
- Brewarrina (Yetta Dhinnakkal) Centre closed in May 2020.
- Kariong Correctional Centre re-purposed to a 24-hour court complex in June 2020.

#### Table 1.4 Inmate security classification

1. Some convicted inmates may have an "unconvicted" inmate classification if they were facing further and more serious charges or had not been re-classified at the time of the census. Therefore the total number of inmates with "convicted" inmate classifications may not be equal to the total number of convicted inmates.

#### Table 2.4 Inmate security classification

1. Some convicted inmates may have an "unconvicted" inmate classification if they were facing further and more serious charges or had not been re-classified at the time of the census. Therefore the total number of inmates with "convicted" inmate classifications may not be equal to the total number of convicted inmates.

1. Transitional Centres commenced operation in September 1996.

2. Corrective Services NSW began managing a small number of Police/Court Complexes in 1992 and operations in this area have increased since 1999. Data on the number of inmates held in these places of detention as at 30 June each year is not available prior to 1999.

3. Total Inmate Population incorporates full-time custody and periodic detention (before 2019). Prior to 2007 published totals for "Total inmates" included inmates held in gazetted correctional centres and periodic detention centres only and excluded transitional centres and police/court complexes - see explanatory note (b).

4. Periodic detainees are no longer existed from 2019 onwards.

n.a. - not available.

ATSI - Aboriginal/Torres Strait Islander.

The method for determining Aboriginality status changed in 2002. See explanatory note (d).
 Non-ATSI includes inmates with unknown Aboriginal/Torres Strait Islander status.

3. Periodic detainees are no longer existed from 2019 onwards.

n.a. - not available.

Table 4.7 Trends in the security classification of convicted inmates <sup>1</sup> held in full-time custody as at 30 June; 1983 to 2020 (excludes periodic detainees)

#### Table 4.8 Trends in most serious offence (ANZSOC<sup>1</sup>) as at 30 June; 1982 to 2020 (includes periodic detainees)

1. Series is based on ANZSOC 2011. Data for years prior to 1989 are unable to re-classified to ANZSOC 2011 and are mapped to ASOC Division 1997). Coding of

Miscellaneous offences was revised in 2012 and previous year results have been amended. See explanatory notes (j) and (k).

2. Periodic detainees are no longer existed from 2019 onwards.

POPULATION TRENDS

#### Figure 5: Trends in the security classification of convicted inmates (excl. periodic detention) as at 30 June each year

Note: Maximum includes AA, A1, A2 and E1. Medium includes B, E2 and Category 4 females. Minimum includes C1, C2 or C3, Category 1, 2 and 3 (females) and Compulsory Drug Treatment Centre inmates (from 2007 onwards).

#### Figure 6: Trends in most serious offence<sup>1</sup> (includes periodic detention) as at 30 June each year

## Table 4.9 Trends in the age profile of inmates as at 30 June;1982 to 2020 (includes periodic detainees)

1. Corrective Services NSW took management of Kariong Juvenile Correctional Centre between December 2004 and May

2015, accounting for the increase in the number of inmates in this age category over that period.

2. Periodic detainees are no longer existed from 2019 onwards.

Figure 7: Trends in the age profile of inmates (includes periodic detention) as at 30 June each year

Priodic detainees are no longer existed from 2019 onwards.

#### Figure 8: Trends in age profile of Aboriginal/TSI inmates (includes periodic detention) as at 30 June each year
